SYNOPSIS.

THE CITY. Greatest orange season ever, netting growers twice the returns of last year's crop. Pretty girl in Coulter's shop to wed distressed San Francisco lover and help him make new start. San Pedro to be shipping port for new, gleaming line south. Long Beach, 2000 racing east to buy property of cold-felt Iowa men. San Francisco refugees turning gray or bald. Cox, supposed murderer of Edwards, located in South America. Tommy Burns gets bride. Tatum rule's end in sight in strike-metropolis. Sixth and Figueroa corner bought as investment. Another man said to figure in Stora case, woman not yet able to give bail. Public Works Board starts better-street campaign. Rev. C. J. K. Jones fails to pass Civil Service examination. Jobbers past chivalrous resolutions against San Francisco's trade. Hearst booster bounced out of Chamber of Commerce relief camp. Rocky real estate liar breaks out in Denver. Sewer baseball league. Possibility here. Fruit men's tangled. Pualas court. Iowa woman's collection broken in runaway.

SOUTHERN CALIFORNIA. See page 2.

EARTHQUAKE. Southern Pacific discourages people who wish to go to San Francisco merely as sightseers. Coroner believes that the ruins are list of bodies and states that the list of dead may reach 1500. A new location for Chinatown is being sought in San Francisco that will be more suitable than the old site. Careful estimates show that within the next year over \$500,000,000 will be available for the rehabilitation of San Francisco.

EASTERN. Disintegration threatens Zion City as the result of the trouble between Dowie and Voliva, many of the members leaving the fold for good. Rev. Hoch was re-nominated for his present position in Kansas in spite of open hostility and the crew restrained. The convention. An electric spark smites sewer gas in New York manhole and a spurting electric fountain resulted when the firemen turned the hose on the flame. Chicago is about to open Bontemps and the crew restrained. The convention. An electric spark smites sewer gas in New York manhole and a spurting electric fountain resulted when the firemen turned the hose on the flame. Chicago is about to open Bontemps and the crew restrained.

CAVALRY RECALLED. WASHINGTON, May 2.—Gen. Duval, commanding the Department of the West, today telegraphed the War Department that he had directed that orders be given for the recall of the cavalry units which started with the expedition to the Philippines.

BISHOPS MEET. CHICAGO, May 2.—Nothing of importance other than the transaction of business took place at the opening of the annual meeting of the Episcopal Synod of the United States today.

CLARK WILL NOT RUN AGAIN. BUTTE (Mont.), May 2.—[Exclusive] Senator W. Clark, in an address before the Chamber of Commerce tonight, declared that he would not be a candidate for re-election.

D.A.R. ADJOURNS. PHILADELPHIA, May 2.—The National Convention of the Daughters of the American Revolution closed today.

PHILADELPHIA, May 2.—The National Convention of the Daughters of the American Revolution closed today.

PANIC ON CHANGE.

Wall Street Prices Slump Heavily.

Many Stocks Touch Lowest Records of the Year in the Wild Confusion.

Ticker Tape from Five to Ten Minutes Too Slow For Frenzied Dealers.

No Definite News to Account for the Collapse—Rallies After Noon.

(BY THE ASSOCIATED PRESS—P.M.) NEW YORK, May 2.—Not since the Northern Pacific panic of May 9, 1901, has there been such a spectacular decline in prices on the Stock Exchange as there was today.

Heavy selling, almost regardless of the prices offered, began with the opening of the market, and from that time till near the close the tone generally was weak.

There were rallies from time to time when the bears bought stocks to cover the sales they had made at higher prices, when some strong financial interests sent in buying orders to protect shares in which they were interested, but each rally except the last one, just before 3 o'clock, was followed by a resumption of the selling movement. The day's trading was extremely heavy, rising to the total of 2,445,000 shares. Nearly seven hundred thousand shares of stock changed hands in the first hour of trading.

EXCITED AT THE START. Considerable excitement marked the opening of the exchange. Yesterday's late decline had prepared the brokers for lower prices and heavy transactions today, and the attendance on the floor was very large. It was known that the commission houses had heavy orders to dispose of securities as early as possible, and also that there were forced sales to be made where customers carrying on margin had failed to respond to calls for more funds.

Within a few minutes after the trading began, many stocks touched new low records for the year. There was much confusion, as it seemed that every broker had orders to sell and was anxious to get rid of his stocks without a moment's delay.

MARKET LEADERS. At first, the interest centered in the half-dozen stocks which have been the market leaders for some time past. Anaconda, which closed last night at 246, opened at 234, and immediately sold at 232, a loss of 14 points. Northern Pacific, which closed yesterday at 190, opened at 188, and on a "running sale" sold at 186, 185, then back to 186 and 187. Amalgamated Copper opened at 99 3/4-99 as compared with 100 3/4, at the close yesterday, and Union Pacific, which closed yesterday at 142 3/4, first opened today at 142, 141 3/4 and 140.

DEMORALIZATION. After the first ten minutes, there was a fair-sized rally on covering by shorts. At noon, support seemed to have been entirely withdrawn, and there was absolute demoralization. Nobody seemed to want stocks at any prices, and they were thrown over the board in ten minutes behind in reporting the sales.

There was another rally at 12:15 o'clock, but this was followed by a drive against leading which carried it down to 112. After 12 o'clock, it appeared that there was no further liquidation in sight, and prices rallied to the best of the day.

There was no definite news to account for the heavy selling and consequent collapse in prices.

SYMPATHETIC LEERS. Hawaiian Incubates Adopt Resolutions and Send Money to Quake Sufferers.

(BY THE ASSOCIATED PRESS—P.M.) HONOLULU, May 2.—The members of the settlement of Molokai have held a mass meeting at which they adopted lengthy and eloquently worded resolutions in the Hawaiian language expressing sympathy for the sufferers from the San Francisco fire.

They also raised a relief fund representing the subscriptions of 400 persons who each gave from 5 cents up to \$10. The resolutions passed by the lepers are of a profoundly religious tone and provide for the forwarding of the resolutions to Mayor Schmitz of San Francisco. The money has been sent to the Honolulu Club of Hawaii.

CHICAGO CITY HALL UNSAFE. Inspection Authorities Condemn Building and Order It Vacated at Once.

(BY THE ASSOCIATED PRESS—P.M.) CHICAGO, May 2.—The City Hall was condemned today as dangerous, and Chief Sanitary Inspector Hedrick said that it should be vacated at once. Several months ago the County Building which adjoins the City Hall on the east, was torn down to permit the erection of a new structure and because of this, the walls of the City Hall have settled several inches and much of the plumbing has become dis-jointed.

NO CHEAP BUILDING.

Business Blocks to be First-Class.

Oakland Contractor Likely to Have Two Millions' Worth of Contracts.

San Francisco's Real Estate Board Removes Restrictions on Realty Sales.

City Engineer's Plans Contemplate Enlarging Congested Districts.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, May 2.—[Exclusive] J. Parker Whitney, the wealthy mining man from Rocklin, this State, and Portland, Me., is to rebuild the Starr-King Building on Geary street immediately. This structure was partially destroyed, and it will entail an expense of \$250,000 to put it in proper condition.

Whitney has given his \$250,000 contract to Robert McKilloan, the Oakland contractor, with instructions to restore the block as quickly as possible as a store and office building.

Other owners of destroyed buildings in the same neighborhood as the Starr-King Building are negotiating with McKilloan to rebuild their structures, and it is likely that McKilloan will have \$2,000,000 of San Francisco building contracts on his hands.

SULLIVAN ESTATE PROPERTY. The Sullivan Estate Company is one of the large owners of real estate which will at once improve its property.

On a frontage of 375 feet on the south side of Mission street, between Sixth and Seventh, running through the Minna, it will erect a market building on part of the land, with a private way left for the use of tenants. The Sullivan Estate Company also owns the northwest corner of Sixth and Mission streets, 50x130 feet, where it will either lease the land or erect a building.

SLY'S APARTMENTS. L. H. Sly will put up a four-story apartment on the northeast corner of Post and Polk streets, in the place of the Almsworth, destroyed by fire.

KEARNY'S WEST SIDE. The west side of Kearny street, between Market and Post, is to be built up soon. Johann Schmidt, who owns the former location of the Crystal Palace saloon, fronting on the west side of Kearny, near Geary, and also fronting on Geary, will put up a new structure there, the height of which will probably be eight stories.

Oscar T. Luning owns the northwest corner of Kearny street and Union Square avenue, where Gust had a cigar store, and a class-A building of six or eight stories is to rise on this site.

The property next to Luning's lot, extending to Post street, was occupied by Roos Bros., and before the fire plans had been drawn for an eight-story building for this firm. The lot on the corner is owned by the Stanton Estate, and the adjoining one by Rouleau, and each of these owners had been burned, but they can be drawn again, and the building will go up as originally designed.

ON MONTGOMERY. G. S. Umben & Co., gave a contract, yesterday, to Kell & Bros., for the erection of a six-story class-A building on the east side of Montgomery street, near Market, where this firm formerly did business. Its building, which was destroyed, was only three stories high.

FREEDOM OF SALE. The Real Estate Board has decided to do away with the restriction against sales of realty. All members of the board will be at liberty to negotiate a sale. The agreement not to arrange sales was entered into by the agents for the purpose of sustaining values, but it is considered no longer necessary, as it appears they are no more anxious to dispose of their holdings now than they were before the fire.

NEW CLUBHOUSES. The clubs made homeless by the fire are rapidly finding temporary quarters, which, though not as commodious or as comfortable as the burned clubhouses, at least serve as places for the members of the different organizations to gather and talk over plans.

The Bohemian Club has been housed at the residence of J. C. Wilson, No. 2171 Pacific avenue, for more than a week past. The Pacific Union Club has secured the Boyd residence at Washington and Octavia streets, and will make its temporary residence there. The Olympia Club signed the lease today for the Hobart residence at Clay street and Van Ness avenue, and will move in within two weeks. Meanwhile the members of these clubs are being made to feel at home at the Corona Club at Sutter and Octavia streets.

ROCKEFELLER SHAKEN UP.

Cylinder Head on Jersey Central Locomotive Blows Out and Piston Rod Breaks.

BY DIRECT WIRE TO THE TIMES. NEW YORK, May 2.—[Exclusive] John D. Rockefeller was a passenger on a Jersey Central train which had a narrow escape from serious accident, just after leaving Red Bank for it run to Jersey City at 4:20 o'clock today.

A cylinder head on the engine blew out and a piston rod broke and crashed through the locomotive cab, barely missing the engine driver, and then the train came to such a sharp stop that every one in the cars was shaken up.

Like other occupants of the Pullman cars, the Standard Oil chief had his window raised, and then inquisitively poked out his head, which was protected by his customary black skull cap. He could not ascertain the cause of the trouble in that way, so he sent his valet out to investigate. He was not content until he had learned the extent of the accident and that no one had been killed or injured.

MEXICANS HOLD TEN AMERICANS. CREW OF THE SALLIE STERN KEPT INCOMMUNICATED.

Vessel's Cargo of Fish Rotting. Manager Munn of the Gulf Fisheries Company Receives Dispatches. Nothing Can Be Learned of Its Detained Smack and Fishermen.

(BY THE ASSOCIATED PRESS—P.M.) GAVESTON (Tex.), May 2.—Manager Munn of the Gulf Fisheries Company of this city today received dispatches from the Warren Fish Company of Pensacola, Fla., stating that the firm had just received word from their fishing smack Sallie Stern, seized by a Mexican gunboat Thursday last, sitting that ten men from the schooner were held in prison, and communication with the American consul was absolutely denied them.

The cargo of fish, in the meantime, is rotting. Manager Munn succeeded in getting a cablegram to the captain of his company's detained smack, taken at the time the Pensacola and Mobile boats were seized, stating that nothing can now be learned from the officer. It is feared that his crew have been thrown into prison and denied communication with the American consul.

Manager Munn communicated with Senator Culberson, and requested him to report to the State Department and secure action.

INHUMAN TREATMENT. (BY THE ASSOCIATED PRESS—P.M.) PENSACOLA (Fla.), May 2.—Languishing in a Mexican prison, half dead for want of food and water, and with their bodies covered with vermin, is the condition of the captain and crew of the Pensacola fishing smack, Sallie Stern, which was captured by a Mexican war vessel off the coast of Yucatan, April 16, according to a letter just received from Capt. Malifano.

The letter was written in Italian and was translated by Italian Consul Caffaro, a certified copy thereof being sent to Senator Mallory for transmission to the State Department.

The letter states that the vessel was captured near Grand Reef Island, the cause of the seizure being the vessel had no license to fish in Mexican waters.

It was towed to Progreso, where the crew was thrown into jail without an opportunity to communicate with either the American or the Italian Consul. The schooner was placed in charge of soldiers and the men treated like pirates.

CREDITORS LEARN HIS TRICKINESS. BANKRUPT BROKER M'REYNOLDS INDICTED ON FIVE COUNTS.

Warehouse Receipts Issued and Grain Shipped Out of Chicago Without the Knowledge of Holders of the Paper—Borrowings from Banks Disclose Methods Pursued.

(BY DIRECT WIRE TO THE TIMES.) CHICAGO, May 2.—[Exclusive] George S. McReynolds, bankrupt grain broker and reputed manipulator of grain receipts, came into prominence again today when McReynolds was indicted by the grand jury on five counts for diversion of assets after receipts had been issued.

It was alleged in the counts, which were brought by associated creditors of McReynolds & Co., that warehouse receipts had been issued and the grain against which the receipts ran was shipped out of the city without the knowledge of the holders of the receipts.

The peculiarity of McReynolds' methods did not develop until large amounts of money were borrowed at various Chicago banks, St. Louis banks and some twenty-five small country banks on elevator receipts issued by the McReynolds Elevator Company of Chicago, in sums from \$100 to \$25,000.

The indicted man began business as a poor clerk in a Board of Trade brokerage concern, and learned the ins and outs of the business. From this he mounted to the head of his own

RAID ON LOTTERY.

Honduras Company Surprised Party.

Secret Service Officers Seize Part of the Plant at Wilmington, Del.

Two Tons of Tickets Are Confiscated and One Arrest Is Made.

Court Orders Return of a Large Quantity of the Captured Effects.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, May 2.—[Exclusive] Following the raid made by the Federal authorities upon the big printing establishment of John M. Rogers of Wilmington, Del., Tuesday, when two tons of lottery tickets were confiscated, Marshal William J. Flynn of the secret service today visited an up-town warehouse and seized the greater part of the working plant of the Honduras National Lottery Company, formerly the Louisiana State Lottery, which had been stored under a fictitious name, after being shipped here from Wilmington, just before the raid was made.

Although an arrest accompanied Marshal Flynn's work it is by no means complete, and today he said he will show that several men whose names are known in the New York business world are implicated.

COURT ORDERS RETURN. (BY DIRECT WIRE TO THE TIMES.) WILMINGTON (Del.), May 2.—[Exclusive] A session was created in the United States Court here today when Judge Bradford delivered a jolt to the Secret Service Department of the government by directing the return of a large quantity of effects which had been seized in the alleged lottery raid.

United States Marshal Flynn, Deputy Marshal Mitchell and Secret Service Operatives Griffin, Fred M. Tate and Harry T. Donaghy made a last night raid and this morning on the printing establishment of the John M. Rogers Press in this city, of which John M. Rogers is at the head. He is wealthy, and is a member of the Board of Park Commissioners. Rogers is charged with printing tickets for the Honduras lottery and shipping them to other States, thereby violating a Federal statute.

Bradford directed Marshal Flynn to return all documents to Rogers that have no direct bearing in the lottery charge. A large number of books were subsequently surrendered.

DOWIE'S QUAKE WRECKING ZION.

"WOLF" IS DRIVING POVERTY—STRICKEN "LAMBS" AWAY.

Forty-eight Persons Bid the City Good-bye Forever and Children Cry for Food—Potatoes, Dry Bread and Disintegration for Those Who Stay.

(BY DIRECT WIRE TO THE TIMES.) CHICAGO, May 2.—[Exclusive] Disintegration threatens Zion City. Hunger stalks through the streets of the city which John Alexander Dowie built, and children cry for food. This condition of affairs was emphasized today by the exodus of forty-eight persons, who bade Zion good-bye forever. Poverty clings about many of the remaining members of Dowie's church.

Since the outbreak of hostilities between the dethroned prophet and Overseer Voliva, fully three hundred people have transferred their belongings to other cities. In the poorer sections of Zion City, the tales of distress are pitiful. Families are said to be living on potatoes and dry bread, with weak tea or coffee once a day.

That harmony has not been completely reestablished at Shiloh House was indicated when Mrs. Jane Dowie at midnight last night took refuge with the family of Deacon Ely, near by. Mrs. Dowie was in hysterical condition. The scene and the fact that Mrs. Dowie was at Deacon Ely's house early today caused a great stir in Zion.

One explanation was to the effect that Mrs. Dowie attempted to enter her husband's room, but he was engaged in prayer, and had the door locked.

"Who is in that bedroom with the 'First Apostle'?" she is quoted as demanding of Dowie's burly negro guard. When told that she could not be admitted, she departed in hysterics, it is said.

As a result of pending litigation over the control of Zion's financial affairs, the college and kindergartens are to be closed indefinitely.

MINIMUM TEMPERATURES.

OPENS VAULT TOO SOON.

Assessor Dodge Loses Valuable Documents When Flames Burst From Opening.

(BY THE ASSOCIATED PRESS—P.M.) SAN FRANCISCO, May 2.—When Assessor Dodge undertook to open the vaults in his office in the City Hall today the contents burst into flames and all the valuable records of assessments upon real and personal properties came near being destroyed.

All the assessment books were lost, including the partially completed roll for the present year. Through the personal efforts of the Assessor, assisted by a fireman and a bystander, the drawers containing cards with the names of all property and amounts due from property holders, were saved. From these the assessment roll can be made up again.

CALVO IS DEAD.

Was Former Argentine Minister to Paris—Pan-American Delegates Confer.

(BY DIRECT WIRE TO THE TIMES.) BUENOS AYRES, May 2.—A Paris dispatch announces the death of Carlos Calvo, former Argentine Minister in Paris, and author of the Calvo doctrine.

Dr. Saenz Pena and Señor Luis Drago, both delegates to the Pan-American Congress, yesterday held a conference, and it is understood, resolved to propose to the congress a more radical policy about commercial claims than those contemplated by the Drago doctrine.

INTERNATIONAL POSTAGE.

ROME, May 2.—The committee of the International Postal Convention, in session here, has rejected the proposal of the delegate from New Zealand for the establishment of a universal 2-cent postage rate. The proposition was supported only by the delegates of Egypt and the United States. A motion of the Japanese to reduce international postage rates to 4 cents was rejected by a majority of three. Arthur Bingham Wakely of Great Britain had proposed the same proposition, which he abandoned, and instead he proposed to maintain the present rate of international postage, but establishing after the first fifteen grammes a scale of 2 cents for every fifteen successive grammes, which was adopted by a majority of one.

MAY LIBERATE PRISONERS.

Manila Authorities Will Examine the Records of Natives Under Sentence.

(BY THE ASSOCIATED PRESS—P.M.) MANILA, May 2.—Gov. Gen. Ide has appointed a committee of judges for the purpose of examining the records of the cases of prisoners under sentence for sedition and insurrection, with a view of determining if such prisoners can be given their liberty without endangering the public peace.

EDMUND STOVER.

MANILA, May 2.—Gov. Gen. Ide has appointed a committee of judges for the purpose of examining the records of the cases of prisoners under sentence for sedition and insurrection, with a view of determining if such prisoners can be given their liberty without endangering the public peace.

Tri-District Convention Meets
at Scranton Today.

Troopers in Mount Carmel.
Conditions Abroad.

(BY THE ASSOCIATED PRESS—P.M.)

SCRANTON (Pa.) May 2.—That the tri-district convention of the United Mine Workers, which opens in this city tomorrow morning, will declare a strike throughout the hard-coal fields is the opinion here tonight of every one in touch with the situation. It seems that there is no way out of a strike unless the mine workers back down, and all of the delegates who are coming to town tonight are far from coming to town tonight are far from favoring anything closely approaching a backdown.

President Mitchell had a mysterious conference here today with Dr. Charles P. Neill of Washington, United States Labor Commissioner and Mining Scale Commissioner. Immediately after the conference, Dr. Neill left for Wilkes-Barre, and said that he would go to Washington tomorrow morning. He would not say what the object of his visit was except that he came in the interest of peace. He said he had been sent by no one. Asked if he was an envoy of the President, he said he was not. Dr. Neill's visit was not of great importance.

It seemed to be the general belief here tonight that Dr. Neill will report to the President upon the situation. It is believed that his conference was the result of an attempt on the part of the Civic Federation to "feel" its way into the situation. The convention tomorrow will be attended by 50 delegates. It is expected that the sessions will continue until Saturday, and that if a strike is passed it will go into effect Monday next involving the 100,000 hard-coal workers of Pennsylvania.

TROOPERS IN MOUNT CARMEL.

STRIKE-BREAKERS ARRIVING.

(BY THE ASSOCIATED PRESS—A.M.)

MOUNT CARMEL (Pa.) May 2.—Quiet continues here, although trouble may break out at any moment. The situation is bitter. The residents to the constabulary. Despite the threats of the citizens that another battle would result, if any of the troopers entered the town, four squads of Capt. Pagers men made their appearance on the streets early today. They were mounted, and had their carbines unslung. The troopers remained here about fifteen minutes, and then proceeded to Lehigh Gap.

The constabulary are greatly encouraged over Gov. Pennypacker's declaration that they acted right in defending themselves here in the two fights with the mob. Five carloads of strike-breakers from the Clearfield region arrived here early today. Fourteen carloads of men from the soft-coal region were run into the Philadelphia and Reading Coal and Iron Company's storage yard, near Mahanoy City. Several cars containing strike-breakers are fitted up so that the men can live in them, and are guarded by details of Coal and Iron policemen.

CHICAGO'S BIG STRIKE.

BUILDING INDUSTRY CRIPPLED.

(BY THE ASSOCIATED PRESS—A.M.)

CHICAGO, May 2.—As the wreckers started the demolition of old structures yesterday to make room for \$4,000,000 worth of new buildings in the Loop district, a strike was called which promises to tie up the building industry of Chicago.

One thousand structural iron workers, following orders, will stop work today, and their idleness will precipitate the first important labor disturbance in the building trades since the 1900 lockout.

The strike promises to stop nearly all construction work of large character. Skyscrapers and other large buildings in the downtown districts especially will suffer a setback.

Delay also is in store for the new County Courthouse where the iron workers were preparing to begin work next week.

The \$4,000,000 figure on proposed new buildings accounts only for improvements to follow wrecking operations actually begun yesterday. In the city's loop district the summer promised an actual investment of \$15,000,000 in new blocks.

The walk-out of the iron workers was voted last night. Arbitration offers, made at the last moment, failed to avert it. The iron workers insist on a wage of \$5 a day for eight hours' work. The contractors offer of \$4.80 for four months and \$4.80 for the rest of the coming year was rejected.

OTHERS AFFECTED.

Aside from affecting directly four-fifths of the mechanics engaged in steel and iron construction work, the strike will throw out of employment several thousand other building workmen, such as carpenters, brick-layers, holly-carriers and stone-cutters.

The strike of the longshoremen has not so far resulted in stopping business in this city to any great extent.

MILWAUKEE MOULDERS.

ated at the head of the lakes. Orders were received from President Keefe of the Longshoremen's Union calling them out. William Jones of the Lake Firemen's Association last night received a telegram from President Keefe calling upon all members to quit work at midnight.

PENNYPACKER'S CALL.

CITIZENS TO MAINTAIN LAW.

(BY THE ASSOCIATED PRESS—P.M.)

HARRISBURG (Pa.) May 2.—Gov. Pennypacker today issued a proclamation in reference to the disorders and disturbances in Pennsylvania, in which he calls upon all citizens to assist in the maintenance of the law, and declares that violence will not be tolerated.

CONDITIONS ABROAD.

PARIS CAREFULLY GUARDED.

(BY THE ASSOCIATED PRESS—P.M.)

PARIS, May 2.—The main force of the labor movement, as it affects the city and the country, appears to have spent itself Tuesday, although detached movements continue to agitate the various trades, requiring constant surveillance by the police and the continued presence in Paris of a considerable force of troops. However, the authorities, while prepared to meet any further demonstration, have no longer treat the movement as a serious menace to the community.

The public which, for a week, has been deeply agitated and fearful, has resumed its usual tranquillity; the central sections of the city have recovered their normal appearance, and business is proceeding as usual. All the stores were open today, and traffic by cabs, street railways, etc., was not interfered with. The cavalry and infantry have been withdrawn from the Bourse, the Bank of France and other financial centers where they had been held in readiness for eventualities.

IN EFFERVESCENCE.

Nevertheless, the work districts, today, continued in a state of effervescence, with frequent minor affrays, and requiring intervention by the troops. The latter remained under arms throughout the day at the Prince Eugene barracks in the Place de la Republique. Occasionally, a single company made a tour of the square as a suggestive warning to groups of loiterers. Toward nightfall, a squadron of cavalry was drawn up facing the Labor Exchange, as it was feared the close of the afternoon meeting of the various trades would result in another demonstration. The precaution, however, proved to be unnecessary, and platoons of police maintained order, compelling the crowds to keep moving and making frequent arrests of loiterers.

The surroundings of the Place de la Republique today, showed the effects of Tuesday's disorders. A kiosk at the Boulevard de Magenta had been overturned, many pickets protecting trees had been cut off, an omnibus overturned and the pavement torn up.

The situation among the workmen has not yet become definite. Some trades are resuming work, and others have decided not to resume until the eight-hour working day is conceded. At the prefecture of police, tonight, it was estimated that three-fourths of the workmen had returned to their tasks, the remaining one-fourth continuing on strike. These latter are mainly masons and stone-cutters.

The divisions within the trades, some striking and others not striking, cause many individual conflicts, as non-striking are being solicited to join those who have walked out. Four masons were arrested while they were seeking to enforce non-striking to join the movement. Another group singing the "Internationale" encountered a platoon of police, when some of the strikers drew revolvers and fired shots, but without doing injury. Several carpenters were arrested for seeking to interfere with other carpenters working in a factory.

In the suburbs and other factory centers there were isolated conflicts between strikers and non-striking. At Belleville, gendarmes and a platoon of cavalry dispersed strikers who were attempting to interfere with workers. A sentry at Aschurban Railway crossing was fired on by some unknown person.

Several trades, including the jewelers and printers, this afternoon met in the Labor Exchange and decided to continue the strike. The Jewelers' Union adopted a resolution "that the working jewelers, numbering 600, decide to continue the strike to the bitter end, until complete satisfaction is given to their protest against police brutality, and that they condemn the arrest of unoffending comrades."

THREATENING AT HAMBURG.

(BY THE ASSOCIATED PRESS—P.M.)

HAMBURG, May 2.—Participants in the May Day demonstration here threaten a general strike, unless the employers modify their decision to discharge until May 11 all longshoremen who did not appear for work yesterday.

BOTH PHONES EXCHANGE 337
The Broadway Department Store
BROADWAY, COR. FOURTH, LOS ANGELES. ARTHUR LETTS, PROPRIETOR

IS SELLING A \$50,000 STOCK AT HALF PRICE AND LESS

Doing in days what the Western Trading Co. (Everybody's Store) of El Paso, Texas, had planned as a season's work. That's why the Broadway is busier every day this week. Half prices are keeping interest at a high pitch.

The stock is so big and good, contains so many things everyone wants, that even the large selling of the past three days has only served to lessen quantities; varieties are still large, and

Garden Hose,
50 feet \$5.98
Not only the hose guaranteed for two seasons, but for good measure, it's complete with coupling, spray or nozzle; 50 feet for \$5.98. Find these in the basement.
And here are \$1.00 hose reels at 60c. They save their cost by making the hose wear longer.

Corset Covers at 5c
10c VALUES.
Plain or lace trimmed. That's news from the Texas stock. Here's more that women will be interested in today on the second floor.

DRAWERS 19c—GOOD 35c VALUES.
Of good muslin, cut fine and full; well made with hemstitched tucks.

35c CHEMISE AT 15c.
Trimmed with torchon edging; well made of good muslin.

\$20 Rugs at \$12.50
It's a big, beautiful Smyrna rug 9x12 feet. A carpet for a whole room. Most as easy to buy today as to take up and clean or move from one room to another. Reversible patterns, good colors; \$12.50 instead of \$20.00.

And here are other stirring values that will draw buyers to the third floor today as surely as the magnet draws the needle.

\$2.50 RUGS AT \$1.25.
Axminster and Wilton velvets, size 27x54; rich colors and patterns.

50c TAPESTRY 25c
50 inches wide; handsome oriental effects for couch covers and pretty drapings.

10c 6W/88 AT 3c
Mill ends, that's why, but lengths from 1 to 10 yards, long enough for most any use. Some of it a little hurt. It's 36 inches wide. Think of paying 3c instead of 10c a yard. Third floor.

Today New Opportunities Will Be Out For Everyone to Share

Half price to pay for maybe the very things you want most.

It has been virtually crowding two stores' stocks into the space already snugly filled by one, and we have taken that fact into consideration in marking prices. Things must hurry out, so that though we bought this El Paso stock at 50c on the dollar, in a good many cases you can pay less than half prices goods were formerly marked.

It's a big thing to handle—the Broadway likes big deals. This store's shoulders are growing broader every day to handle larger responsibilities; to have greater strength to grasp better opportunities for you.

El Paso is 813 railroad miles from Los Angeles. It was but a step for the Broadway to take when it saw the possibilities for you in this big El Paso stock at 50c on the dollar.

See what it means—visit the store today; it's opportunity time for everyone—a big, general occasion for men, women and children to pay half, and less than half, for the very things they want most.

And our own good regular stocks are underpriced in sympathy with the unusualness of the event

Wash Bowl and Pitcher 60c
A good \$1.10 value. Fancy shapes; white, large; any number of them will go out Thursday at 80c instead of \$1.10. Find them in the basement. **CHAMBERS 48c** instead of 60c; white, covered. In the basement. **SLOP JARS 30c** instead of \$1.19; ball handle and cover. In the basement.

MINCE MEAT, SIX PKGS. 25c.
Regular 10c size, condensed mince meat. 19c for 30c Canned Armour's Baked Chicken or Turkey. 11c for 16c oz. Jar White Honey. Water white strained. 12c for lb. Package Calumet's Figs—Roeding's.

8c for Package of Cheese Wafers. Fresh baked. Just sign posts that point the way to other

Savings on Good Groceries. You can make today at the Broadway grocery store. Fourth floor.

\$10 Cameras \$5.75
On the third floor today. Covered with seal grain leather, with sharp, clear lens, quick shutter, reversible finder, two tripod sockets, trimmed with aluminum.

Just such a camera as you've wanted and needed to double interest in Sunday and outing trips. The more good, clear pictures you get, the more you will think of the "Broadway" and wonder how we can sell it at \$5.75 instead of \$10.00.

Doing the unusual, first—leading always, in this store business.

ARGO DEVELOPING PAPER 12 1/2x DOZ.
Regular 15c cabinet size; prints at night.

M. Q. DEVELOPING POWDER, 5 TUBES 38c.
Regularly 10c a tube. For paper, films or plates.

P. S. Better developing and printing are hobbies with us, savings have become a hobby with our customers.

RELIEF WORK HITS A SNAG.

Rev. Father York Tries to
Stir Up Strife.

Banned Trouble Maker
Worries the Workers.

Priest Claims Catholics Are
Being Starved.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, May 2.—[Exclusive Dispatch.] That "good old reliable" trouble maker, Rev. Father York, is reared up on his haunches, howling into the night, as of yore.

They may run after strange gods. They may try newer men with newer methods; they may experiment with B. Fay Mills; but in the end they will come back to Father York when he wants a whooping old-fashioned rough house.

When it got to a place where they simply couldn't stand him in San Francisco any longer, they banished him to "the gods." East Oakland, just as they banished New York policemen to Harlem. This earthquake has given him another chance to "start something." He burst into Oakland relief work yesterday with a yell. He says Catholics are being starved on account of their religion, demands an investigation, insists investigation committee, roars, whoops, yowls.

STARTS TURMOIL.

Already he has the committee stirred into turmoil here. Two days ago an Italian woman came to Oakland relief headquarters and claimed that she could speak no English. All that could be gotten out of her was the name of some Catholic priest.

No one knew what she wanted, or what she was trying to say. They took her from one to another, looking for an interpreter. Finding no one about relief headquarters who could speak a word of Italian, they told her to go back to Catholic headquarters, thinking perhaps they would have better luck with her there.

Nothing more was thought about it, but suddenly in bursts Father York, with Father Mcweeney, who had been appointed a member of the Relief Committee of Oakland, but this was the first time he had deigned to show up. He entered with one of his celebrated bursts of exuberance.

RUSHING TACTICS.

Father York operates on much the same lines as that celebrated young fistic artist, "Rough House Burns." At the stroke of the gong, Mr. Rough House Burns rushes out of his corner like a mad bull, and clumps his antagonist over the ear before he can get to his feet. Just so with Father York.

They tried to explain the matter to him, but he would hear nothing. He burst before the Executive Committee and yelled his head off. As nothing could induce him to listen to reason, the following committee, whose personality is a guarantee, was appointed to investigate his charges: J. J. Fogarty, representing the Chamber of Commerce; W. W. Morrow, U. S. Judge; Rabbi Friedlander.

Father York coolly insulted the members of this committee to their faces. He said he had no confidence in them. He made this statement to the Executive Committee. He probably "would" have more confidence in a committee composed of Pinhead McCarthy, Rev. Billstickler Mills and W. R. Hearst.

NO DISCRIMINATION.

It seems hardly necessary to say that there has been no discrimination against Catholics or anybody else. The committee does not know and does not care what persons' religious opinions happen to be.

Father York makes the ridiculous statement that when this woman came in the relief line some one demanded to know the religion she professed, and then told her she would have to eat at Catholic headquarters.

B. Fay Mills's case is beginning to assume a complexion that is beyond a joke. There may be serious complications.

This morning a small shower of bills came to the Oakland Relief Committee, which Mills contracted without authority. One was for hay, a wagon, and a load of hay which he had actually "confiscated," cheerfully assuming the authority of the United States government. Another bill was for \$125 typewriter.

BILLS SENT TO HEARTS.

Both bills were respectfully referred to the Hearst camp for payment.

Frightened at the muss he stirred up there, Mills tried to herd together some Oakland preachers just before leaving here, and get an indorsement from them to flash in the faces of Los Angeles people.

He called together ministers in East Oakland for a mysterious conference. They collected, and said the earthquake was awful and the condition of the people was pathetic, and then they gaped at each other and wondered what it was all about. Whereupon B. Fay pulled out a burning resolution indorsing his action in "without authority," and branding Hearst as a benefactor of the very first water. He suggested that the ministers pass this for publication in the Hearst papers. The reply of the preachers was very brief. They said "nit," or the ministerial equivalent thereof.

FRICTION OVER CHANGE.

Considerable friction is developing here on the proposal of the army officers to take over the Oakland relief work. Gen. Woodruff attended the Executive Committee meeting yesterday. He said on the army taking charge no further supplies will be issued to people to take home.

All refugees will be concentrated at Adams Point. Any one who wants a meal must go out and eat it there. No meals will be given to able-bodied men. This is evidently designed to stop fakery from sending out all their children to collect food, but considerable bitterness is felt.

"FIREWORKS" FROM MANHOLE.
Spark Ignites Sewer Gas in New York.
Opening and Vivid Display.

Results.
[BY THE ASSOCIATED PRESS.—A.M.] NEW YORK, May 2.—Everybody within two blocks of Broadway and Third street last night had an experience which resembled an earthquake and incidentally witnessed one of the finest electrical fountain displays seen in many a day.

A manhole cover was blown up. A policeman was near the manhole when a great volume of gas ignited, exploded and threw him ten feet away into the gutter. Two other policemen were shaken nearly of their feet and three young women were jarred severely.

the conduit, which was converted into a spurting electric fountain. As the water soaked the pavement blocks it made them conduct the liberated electricity and for five minutes men jumped into the air whenever a stray flash came toward them. The police finally drove the crowd back a block each way.

The manhole cover had smashed up against the elevated railroad structure and was shattered into fragments. Experts said an electric spark had ignited sewer gas in a conduit.

WRECKED STEAMER FLOATED.
British Columbia Company Raises the "Mariechen" After Ten Weeks' Work.

[BY THE ASSOCIATED PRESS.—A.M.] VICTORIA (B. C.) May 2.—Private dispatches to the British Columbia Salvage Company report the floating of the German steamer Mariechen, which was wrecked last February at False Bay, Alaska.

The Salvor of the British Columbia Salvage Company, with a special permit to engage in wrecking in Alaskan waters, went north with a wrecker to raise the vessel, and after ten weeks' work has been successful.

The steamer was floated two days ago, and towed to Juneau, where she will be temporarily repaired for the trip to Esquimaux.

The salvage company will receive \$27,500 for salvaging the steamer.

ENGLAND NOT TO ENCROACH.
Anglo-Chinese Agreement Prohibits Great Britain from Tibetan Interference.

[BY THE ASSOCIATED PRESS.—A.M.] LONDON, May 2.—Lord Fitzmaurice, under secretary for foreign affairs, in the House of Lords, replying to a question, explained that the Anglo-Chinese convention which has just been signed at Peking does not alter the arrangement concluded by the Anglo-Tibetan treaty.

The convention engages Great Britain not to encroach upon Tibetan territory nor to interfere with the Tibetan government. China on the other hand undertakes not to allow any foreign state to interfere with the government or internal administration of Tibet.

The convention further affirms that Great Britain does not seek for herself any of the concessions mentioned in Article 9 of the Anglo-Tibetan treaty, which are denied to any other State or subjects thereof.

DEEP GAME
OF RUSSIA.

Publication of News Regarding Troops in Manchuria Forbidden by the Censors.

[BY THE ASSOCIATED PRESS.—A.M.] ST. PETERSBURG, May 2.—Further intimation that Russia is playing a deep game in the Far East is given in a circular sent by the censors to all newspapers and periodicals, forbidding the publication of any news with regard to the demobilization of the army and movements of troops in Manchuria and the reorganization of military establishment in Siberia and the Far East.

It is generally supposed the circular was incited by the publication of the news of a halt in withdrawing the Russian army from Manchuria, and the dispatch of the Novitski expedition to Mongolia, which, though supposed to be General Staff secrets, were published even in official papers and are liable to embarrass seriously Minister Pokotloff's negotiations at Peking.

How to Make
Delicious Bouillon

Recipe and Directions of Value to Every Housewife.

There is a sound reason for starting a meal with soup. No other form of food is so conducive to free flow of the gastric juices. It is a perfect introduction to the solid food to come after, and is at all times a valuable aid to the digestive process.

The bouillon recipe which follows is a universal favorite. Time necessary to prepare ten minutes.

Dissolve one heaping teaspoonful of Rex Beef Extract in four cups of hot water. Add one-half teaspoonful butter, one teaspoonful minced onion, one teaspoonful salt, one-fourth teaspoonful pepper, a dash of cayenne and celery sauce, one bay leaf. Boil slowly for ten minutes.

Rex Beef Extract is prepared only by the Cudahy Packing Co., and is made by a different method than is employed by other makers of meat extracts. The beef, carefully selected piece by piece, is reduced not by boiling, but by the costly process of simmering in vacuum until the water is evaporated and the solids disintegrated, freeing the nutrient portions from the waste. Forty-five pounds of the finest beef are required to make one pound of Rex Brand Extract.

It is invaluable for invalids and those requiring a readily assimilated diet, and for countless culinary purposes. It is sold by most druggists and grocers. See that you get Cudahy's Rex Brand.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Cornell Dinner.

Old days at Cornell will be recalled and some present-day affairs discussed at a dinner of the Cornell University Club at 6:30 o'clock this evening at Levy's.

Struck by a Car.

In attempting to jump on a moving car at Fifth street and Central avenue yesterday, Walter Swanson was struck by a step of the car, and had several ribs broken. He was taken to the Emergency Hospital, where he still remains.

Slums of New York.

"The Slums of New York" will be the subject of an address by Mrs. S. H. Payne, in Temperance Temple, on Friday afternoon, to which the general public is invited. There will be special music.

Evangelistic Meetings.

Evangelist Edward S. Walker of Greenfield, Ind., began a series of meetings in the Boyle Heights Methodist Church last night, which will continue for ten days. He is a strong preacher and attracted a full house last night. The pastor, Alfred Inwood, will have charge of the services, at 7:30 and 8:00 o'clock each day.

"The Times" Fund.

Three remittances have been forwarded to ex-Mayor Phelan, head of the General Relief Committee of San Francisco, from the fund contributed through The Times for the relief of the earthquake and fire sufferers in that city. These remittances amount to \$2,000. In addition \$10,000 in all has been sent from this fund to Santa Rosa.

Burdette to Address Nurses.

Rev. Robert J. Burdette will be the speaker this evening at the graduation exercises of the Pacific Hospital Training School for Nurses, which will be held in Cuneo Hall, No. 1208 South Figueroa street. There will be ten young women graduates, representing seven states. The public will be welcomed at the exercises, which will open at 8 o'clock.

Death of Former Resident.

Mrs. M. H. Williams, mother of Mrs. Alfred Inwood, pastor of the Boyle Heights Methodist Church, died yesterday near Tacoma, Wash. The body will arrive in this city on Saturday morning and the funeral will occur at Long Beach on Sunday afternoon. The deceased was the widow of the late Dr. M. H. Williams, who lived in this city and Long Beach for many years, and who died several years ago in Washington.

The California Christian Advocate reached Los Angeles subscribers yesterday. Dr. Freeman B. Boyd, the editor, says that his office supplies saved from the San Francisco fire consisted of a lead pencil and a notebook. The paper will be issued temporarily from a Berkeley office. Dr. Boyd is a brother of President Boyd of the University of Southern California.

Capt. Kienner Gaining Strength.
Capt. Charles Kienner, who was prostrated as a result of the news of the earthquake and fire in San Francisco, and whose life was despaired of because of the severe hemorrhages which followed the terrible excitement under which he labored, is slowly improving in condition, and gaining strength. He has made a hard fight for life, and today will be removed to the Barlow Sanatorium, where he will be given special medical treatment for a month.

BREVETTES.

\$3.50 to \$5.00 eye glasses and spectacles for only \$1.50. One trial will convince you that our Best A-1 crystal reading lenses in a ten-year gold-filled frame are perfectly satisfactory, and they only cost you \$1.50. We are especially equipped to handle the most difficult cases. Examinations made by a graduated State registered optician. Consultation free. Clark's Optical and Jewelry Store, 351 S. Spring street near Fourth.

British subjects are requested to send their address to the undersigned. All British-born persons are earnestly advised to execute wills appointing resident executors. C. White Morrison, British Vice-Consul, Los Angeles.

Are you going to purchase a gift? We can sell you a \$15 present for \$10, because we are going out of the jewelry business, to continue as optician only. Showcases and fixtures for sale. Job. Von Breton, 250 S. Broadway.

Just out—Postal cards, fire and earthquake, San Francisco, Santa Rosa, Stanford University; forty subjects sent post paid all parts of the world, 25 cents per dozen. M. Hiedler, publisher, Los Angeles, Cal.

If you want to dine at the neatest, cleanest café in the city go to the Wagner, at 608 South Hope street, formerly at 148 South Broadway, located now in the Hotel Valdemar, corner Sixth and Hope.

The Woman's Parliament of Southern California will provide good homes and employment for women and young girls. Refugees apply information Bureau, Times building, First and Broadway.

Oakland office Los Angeles Times, 518 Broadway, Telephone Oakland 7467, Arthur L. Fish representative. Advertisements and subscriptions received. Copies of The Times on file.

High-grade bed ensembles, rich colors, reduced one-half. Regular price 20c, now 10c. P. H. Mathews' Paint House, 280 S. Los Angeles street.

Idylwild reopens June 1st. Daily through trains from Los Angeles meet stage at Hemet.

See Wick's advertisement of Seventh-street city lot in city lots at \$200.

Furs, D. Bonoff, furrier, 212 S. Broadway.

COLLAR BONE BROKEN.
Runaway Horse Dashes Two Ladies to the Street, Severely Injuring One of Them.

One of the strange accidents that came into the lives of people occurred yesterday on Broadway, and sent a lady back to her home in a sorely wounded condition.

Charles Hutchindorf of Atlantic, Iowa, his wife and daughter, Rose, have spent the entire winter and spring in this city, being guests at a private hotel at No. 14 South Olive street. They have been on the streets almost every day during these months without meeting with the slightest mishap. Yesterday they were going back home to Iowa; the daughter had gone to the Salt Lake station with a lady friend, Mr. Hutchindorf was seeing to the baggage, while Mrs. Hutchindorf and her married daughter, Mrs. Mary Rhymer, who lives in this city, walked to the corner of Third and Broadway to take a car to the station. They were almost to the curb when a runaway horse dashed up Broadway, and before the two ladies could get out of the way, ran them down and left them prostrate in the street.

They were quickly picked up by bystanders and carried into a drug store and in a few moments removed to Mrs. Hutchindorf's rooms, that she had vacated but a few minutes previously. It

was found that her most serious injury is a broken collar-bone, while that of Mrs. Rhymer is a contusion on the forehead.

The runaway horse was attached to a light, rubber-tired runabout, and came from some distance down the street at a terrific pace, but the rubber tires prevented the wheels from making unusual noise. As the animal reached Third street, running on the west side, horse instinct probably suggested to him that he get on the right side of the street, and he shot between two cars, one standing on each track. The two ladies on the crossing had no opportunity of seeing the horse, and though a shout from many men and a scream from a crowd of women rent the air, it was too late for the ladies to escape. After knocking them down the horse continued up Broadway on a wild run, and disappeared into the Broadway tunnel, five blocks from where the accident occurred.

TAFT ON CITIZENSHIP.

Secretary of War Talks to the Students and Faculty of Yale at New Haven.

(BY THE ASSOCIATED PRESS—A.M.) NEW HAVEN, May 2.—Judge William H. Taft, Secretary of War, delivered the final address in the Dodge foundation course of Yale last night, on "The Responsibilities of Citizenship." He treated the subject from the standpoint of the National Executive. Following the address a large reception was given to Mr. Taft by President Hadley and the faculty of Yale.

Preliminary to his address, Judge Taft referred to sensational newspaper attacks upon public men, and unwarranted press hostility and misrepresentation of policies of a national administration. He said that in general such attacks did no harm.

He paid a high tribute to the news correspondents residing in Washington, and said that the amount of attention given to them by administrative circles, and even the President himself, was almost amazing. Of legislation he said: "It is encouraging to men close to headquarters in Washington to find out how much less influential private interests are in securing beneficial legislation for themselves than is generally held to be the case. Speaking generally, the people in the end get the kind of legislation they want, although it sometimes takes one or two or three Congresses to reach it."

Toward the end of his address, Judge Taft paid a glowing tribute to the civil service in Washington.

LIGHTNING BURNS HOTEL.

CHICAGO, May 2.—The Glen Ellen Hotel, a \$200,000 structure erected last summer, was struck by lightning yesterday, and together with \$20,000 worth of furniture, was burned to the ground. The building was unoccupied.

VITAL RECORDS.

Births.
LOVINGUTH. To the wife of Charles Lovinguth, No. 1455 West 21st st., May 1, a daughter.

Deaths.
WEBSTER. In Los Angeles, May 2, 1904, Ada M. Webster, burial at Forest Hill.

May 1, 1904, Samuel A. King of No. 1298 Hobson street, friend may call at the chapel of Orr & Hines Co., No. 417 South Broadway, until 1 o'clock today.

Services will be held at the Congregational church, No. 411 Madison and Vine streets, today at 2 o'clock.

L. Frank, aged 81 years, remains at parlor of Connell-Untermyer-rawford, No. 1011 South Grand avenue, Interment, Philadelphia, Pa.

GILBERT. In this city, April 30, 1904, Agnes W. beloved wife of Judge F. W. Gilberg of San Bernardino, aged 62 years. Funeral residence of Mr. and Mrs. Joseph Boynton, 110 1/2 South Broadway, at 2 o'clock, May 3, 1904, at the Cathedral at 2 p.m.

Where requiem mass will be celebrated for the repose of her soul. Interment, Calvary Cemetery.

LA MERKLE. Eva, beloved wife of F. W. La Merger, mother of Frank, Jr., and Ethel Helen La Merger. Funeral from undertaking parlors of W. H. Butch, No. 442 South Figueroa street, Thursday, May 3, at 9:30 a.m. Friends invited.

PITMAN. In this city, Mrs. Sarah A. Pitman, wife of J. S. Pitman, mother of Mary E. Dennis, M.D., and Rev. H. K. Pitman. Funeral from residence, Thursday at 2:30 p.m. Interment Santa Anita.

BURDICK. In this city, May 2, 1904, Eva May Burdick, daughter of Mr. and Mrs. J. G. Chambers, No. 647 North Grand avenue.

FEENEY. At 10:15 p.m., May 2, in Hollywood, Mrs. Ann Feeney, nee Meagher. Funeral notice later.

Marriages.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Cornell Dinner.

Old days at Cornell will be recalled and some present-day affairs discussed at a dinner of the Cornell University Club at 4:30 o'clock this evening at Levy's.

Struck by a Car.

In attempting to jump on a moving car at Fifth street and Central avenue yesterday, Walter Swanson was struck by a step of the car, and had several ribs broken. He was taken to the Emergency Hospital, where he still remains.

Slums of New York.

"The Slums of New York," will be the subject of an address by Mrs. S. H. Payne, in Temperance Temple, on Friday afternoon to which the general public is invited. There will be special music.

Evangelistic Meetings.

Evangelist Edward S. Walker of Greencastle, Ind., began a series of meetings in the Boyle Heights Methodist Church last night, which will continue for ten days. He is a strong preacher and attracted a full house last night. The pastor, Alfred Inwood, will have charge of the services, at 2:30 and 7:30 o'clock each day.

"The Times" Fund.

Three remittances have been forwarded to ex-Mayor Philbin, head of the General Relief Committee of San Francisco, from the fund contributed through The Times for the relief of the earthquake and fire sufferers in that city. The remittances amount to \$2,000. In addition \$10,000 in all has been sent from this fund to Santa Rosa.

Burdette to Address Nurses.

Rev. Robert J. Burdette will be the speaker this evening at the graduation exercises of the Pacific Hospital Training School for Nurses, which will be held in Cunnock Hall, No. 1500 South Figueroa street. There will be ten young women graduates, representing seven states. The public will be welcomed at the exercises, which will open at 8 o'clock.

Death of Former Resident.

Mrs. M. H. Williams, mother of Mrs. Alfred Inwood, pastor of the Boyle Heights Methodist Church, died yesterday near Tacoma, Wash. The body will arrive in this city on Saturday morning and the funeral will occur at Long Beach on Sunday afternoon. The deceased was the widow of the late Dr. M. H. Williams, who lived in this city and Long Beach for many years, and who died several years ago in Washington.

The California Christian Advocate reached Los Angeles subscribers yesterday. Dr. Freeman Board, the editor, says that his office supplies saved from the San Francisco fire consisted of a lead pencil and a notebook. The paper will be issued temporarily from a Berkeley office. Dr. Board is a brother of President Board of the University of Southern California.

Capt. Kiener Gaining Strength. Capt. Charles Kiener, who was prostrated as a result of the news of the earthquake and fire in San Francisco, and whose life was despaired of because of the severe hemorrhages which followed the terrible excitement under which he labored, is slowly improving in condition, and gaining strength. He has made a hard fight for life, and today will be removed to the Barlow Sanatorium, where he will be given special medical treatment for a month.

BREVETIES.

\$1.50 to \$5.00 eye glasses and spectacles for only \$1.50. One trial will convince you that our Best A-1 crystal reading lenses in a ten-year gold-filled frame are perfectly satisfactory, and they only cost you \$1.50. We are especially equipped to handle the most difficult cases. Examinations made by a graduated State registered optician. Consultation free. Clack's Optical and Jewelry Store, 351 S. Spring street near Fourth.

British subjects are requested to send their address to the undersigned. All British-born persons are earnestly advised to execute wills appointing resident executors. C. White Mortimer, British Vice-Consul, Los Angeles.

Are you going to purchase a gift? We can sell you a \$15 present for \$10 because we are going out of the jewelry business, to continue as opticians only. Showcases and fixtures for sale. John Von Breton, 550 S. Broadway.

Just out—Postal cards, fire and earthquake, San Francisco, Santa Rosa, Stanford University, forty subjects sent post paid all parts of the country. 25 cents per dozen. M. Rieder, publisher, Los Angeles, Cal.

If you want to dine at the nearest, cleanest café in the city go to the Wagner, at 606 South Hope street, formerly at 549 South Broadway, located now in the Hotel Valdemar, corner Sixth and Hope.

The Woman's Parliament of Southern California will provide good homes and employment for women and young girls. Refugees apply Information Bureau, Times building, First and Broadway.

Oakland office Los Angeles Times, 578 Broadway, Telephone Oakland 7467. Arthur L. Fish representative. Advertisements and subscriptions received. Copies of The Times on file.

COLLAR BONE BROKEN.

Runaway Horse Dashes Two Ladies to the Street, Severely Injuring One of Them.

One of the strange accidents that came into the lives of people occurred yesterday on Broadway, and sent a lady back to her home in a sorely wounded condition.

Charles Hutchindorf of Atlantic, Iowa, his wife and daughter, Rose, have spent the entire winter and spring in this city, being guests at a private hotel at No. 248 South Olive street.

They have been on the streets almost every day during these months without meeting with the slightest mishap. Yesterday they were going back home to Iowa; the daughter had gone to the Salt Lake station with a lady friend, Mr. Hutchindorf was seeing to the baggage, while Mrs. Hutchindorf and her married daughter, Mrs. Mary Rayner, who lives in this city, walked to the corner of Third and Broadway to take a car to the station. They were almost to the curb when a runaway horse dashed up Broadway, and before the two ladies could get out of the way, ran them down and left them prostrate in the street.

They were quickly picked up by bystanders and carried into a drug store and in a few moments removed to Mrs. Hutchindorf's room, that she had vacated but a few minutes previously. It

was found that her most serious injury is a broken collar-bone, while that of Mrs. Rayner is a contusion on the forehead.

The runaway horse was attached to a light, rubber-tired runabout, and came from some distance down the street at a terrific pace, but the rubber tires prevented the wheels from making unusual noise. As the animal neared Third street, running on the west side, horse instinct probably suggested to him that he get on the right side of the street, and he shot between two cars, one standing on each track. The two ladies, who were crossing had no opportunity of seeing the horse, and though a shout from many men and a scream from a crowd of women rent the air, it was too late for the ladies to escape. After knocking them down the horse continued up Broadway on a wild run, and disappeared into the Broadway tunnel, five blocks from where the accident occurred.

TAFT ON CITIZENSHIP.

Secretary of War Talks to the Students and Faculty of Yale at New Haven.

(BY THE ASSOCIATED PRESS—A.M.) NEW HAVEN, May 2.—Judge William H. Taft, Secretary of War, delivered the final address in the Dodge foundation course of Yale last night, on "The Responsibilities of Citizenship." He treated the subject from the standpoint of the National Executive. Following the address a large reception was given to Mr. Taft by President Hadley and the faculty of Yale. Preliminary to his address, Judge Taft referred to sensational newspaper attacks upon public men, and unwarranted press hostility and misrepresentation of policies of a national administration. He said that in general such attacks did no harm.

He paid a high tribute to the news correspondents resident in Washington, and said that the amount of attention given to them by administrative circles, and even the President himself, would amaze the public. Of legislation he said:

"It is encouraging to men close to headquarters in Washington to find how much less influential private interests are in securing beneficial legislation for themselves than is generally held to be the case. Speaking generally, the people in the end get the kind of legislation they want, although it sometimes takes one or two Congresses to secure it."

LIGHTNING BURNS HOTEL.

CHICAGO, May 2.—The Glen Ellen Springs Hotel, a \$50,000 structure erected last summer and struck by lightning yesterday, and together with \$20,000 worth of furniture, was burned to the ground. The building was untenanted.

BIRTHS, DEATHS, MARRIAGES.

Both the above items were 35c a yard yesterday, and will be that price again tomorrow.

For Today Only, Choose From the Lot At 25c Yard

Paid Caruso

\$35,000

For Thirty Songs

Caruso, the world's greatest tenor, with many other famous operatic stars, experienced the horrors of the San Francisco disaster. Caruso lost his invaluable wardrobe and left the ruined city with but a poorly filled suit. The Victor Talking Machine Company recently paid him \$35,000 for thirty songs.

Although Caruso will not appear in Los Angeles, every music lover can hear his wonderful voice through the medium of the Victor Talking Machine and Records.

With the Victor, we don't have to put on our dress suits, nor must we eat a late supper. Here we are, right in the home, with fine seats and the singing "Celeste Aida." The best we could know we are pinching ourselves to be sure we didn't see him. Surely we could see his breast heave as he recovered from one of those masterfully sustained tones.

We now have in stock the six new Caruso Records proclaimed by every one who has heard them the best yet. Complimentary Caruso records every day. You are invited.

Victors sell from 87c to \$100. Come in and hear the new Caruso Records and let us tell you about our plan of monthly payments.

Los Angeles Daily Times

THURSDAY MORNING, MAY 3, 1906.

HARVEST OF GOLD FOR GOLDEN CROP.

Greatest Citrus Season Ever Known, Now Drawing Toward Close, Will Net Growers Double Returns Received for Last Year's Shipments.

RETURNS from this season's shipments of citrus fruits will plaster every orchard in Southern California with gold leaf, according to estimates made yesterday by a prominent local authority on fruit matters.

Nearly \$30,000,000 is the estimate, based on the returns so far received—with the shipping season practically two-thirds gone. Of this great total, it is reckoned that \$20,000,000 will go into the hands of the growers, the other \$10,000,000 being deducted for packing, shipping and other charges.

It is the greatest citrus season ever known. The returns to the growers on everything except Valencia, lemons and exceptional shipments of navela probably will be double those of last year, which by no means was a season of low prices.

With a continuance of the present exceptional market, it is believed some wonderful prices will be realized for fruit that is yet to go forward.

Had the eastern apple crop done its duty this might not have been so good a year for the orange growers of Southern California. That shortage and a comparatively slack crop of oranges in this section made the orange market hum.

Apples were high in price and hard to get. Oranges were to be had, but they, too, were higher than usual. There was but little difference in the prices of the two fruits, so little that the buyer decided in favor of the golden sphere as against the toothsome pippin.

On top of this was the knowledge that the orange crop was below that of the year before—maybe 5000 cars. This and the bribe demand made a market of fear for the Southern California shippers.

Thus do the orange shippers explain the reason for this fat year. But they point out that this may not always be so. Next year's market may be deluged alike with apples and oranges; then for low prices.

SEASON'S OUTPUT. Twenty-five thousand cars of citrus fruits will be this season's shipments, it is estimated. Of these, probably 4000 cars will be lemons. About 17,000 carloads of fruit have gone forward, according to the best figures obtainable.

Navela continue to move. An exceptionally fine lot of them are going forward this month. They are ripe, sweet and heavy with juice. They should command excellent prices. Some shippers have been holding them back for a May market is considered the best of all. People who appreciate the best fruit are willing to pay for it.

Valencia will move in the amount this volume until June. Shipments of that variety will continue until late into October. A guess made yesterday is that 2500 carloads of Valencia will be shipped. This fruit brings fancy prices, a fact that has stimulated the increased output.

Climatic conditions have had much to do with the present season's splendid returns. There has been less puffing and less wind in the fruit than in the past. The fruit probably never reached the market in better condition.

Prompt handling of the railroads, due to free competition resulting from the routing of shipments by the growers, has had much to do with this. Fast trains have been running between the point of production and the point of consumption.

RAILROADS KIND. Despite the Supreme Court decision in the favor of the railroads, the continued to permit the shippers to route their fruit as they wished. Whether the initial lines will extend this courtesy another season is something that has not been made known. Just now, at any rate, the railroads are just as good as they can be.

Although the growers' returns are practically double what they were last year, there has been little increase in the expense of handling and shipping. If anything, this cost has been less, owing to the decreased number of cars sent out.

The money received by the growers will go quickly into circulation, in the improvement of orchards and the acquisition of new ones. Labor has received and will get a goodly share of the proceeds. The packing and handling of the fruit has netted much to pickers and packers. The fruit boxes and all that is done in great part in this vicinity, thus keeping a considerable portion of these expenditures at home.

Railroad charges are less in total than last season for the reason already noted—that the total number of cars handled is smaller.

WHERE FRUIT GOES. New York has received the largest shipments, with Chicago a good second. Providence, which supplies Southern New England, has taken a large share, so has Boston. Minneapolis is a big market, and there are scores of other cities throughout the country that have helped to swell the crop.

New markets have been found in the Hawaiian Islands, and in Australia and other foreign lands. Because of the good domestic market, however, little attention has been paid to supplying the demand abroad.

London has paid as much as \$11 a box for California oranges. Some shipments to the great English city have netted an average of \$7 a box for the good cause. In Cincinnati, alone several boxes were bid in at \$20 each. Many boxes went at \$40 each in Cincinnati, while numerous St. Louis buyers gladly paid \$50 a box. The prices paid ranged downward from these figures to a little above normal, giving the average already noted.

LESSON ON LEMONS. In its campaign of publicity, the Southern California Fruit Exchange sent to Philadelphia a number of boughs of lemon trees, laden with fruit. This was a great curiosity to the Pennsylvanians. One paper, speaking of the exhibit, said:

"On each branch can be seen the fully-matured lemon, representing this year's crop, as well as the smaller lemon of next year, and the blossom, which represents the crop of two years hence."

Which is more amusing than edifying to the grower, who usually reckons that it takes about eight or nine months for a blossom to mature. Down at the County Farm the oranges are so ripe and luscious that the supervisors are compelled to rush them out to prevent the patients at the institution from eating the entire crop from the trees. Some big shipments have been made for Boston and New York. The county's charges have not yet made any great inroads is proved by the fact that Los Angeles county so far this season has received \$250,000 for the fruit, while the farm and hospital have been well supplied.

The kind of jubilation that possesses the proverbial farmer after a heavy rain has seized upon owners of orange orchards throughout Southern California. Fancy prices are demanded for many of the best orchards, and there are few who care to sell in the face of this season's returns.

A Covina rancher is said to have sold his ten-acre place for \$20,000 and is said to have retained this year's crop, of an estimated value of \$10,000.

A man with an eighty-acre orchard is said to have sold his crop for \$50,000, not for the ranch.

But the experienced fruit men say it is well for the growers to make the most of their present rich harvest. They have had bumps enough in the past; they may have many more.

The tendency, it is said, is for the grower to expect the market to be better than it is. People who expect the best fruit are willing to pay for it.

Valencia will move in the amount this volume until June. Shipments of that variety will continue until late into October. A guess made yesterday is that 2500 carloads of Valencia will be shipped. This fruit brings fancy prices, a fact that has stimulated the increased output.

Climatic conditions have had much to do with the present season's splendid returns. There has been less puffing and less wind in the fruit than in the past. The fruit probably never reached the market in better condition.

SNAPPY RACE AFTER SNAPS.

Two Make Mad Dash to Iowa to Buy Lots from Cyclone Believers With Cold Feet.

Dashing half across the continent in a snappy race to snap up real estate snaps, David Hughes of Iowa and J. G. Welch of Long Beach have set the people of the seaside city by the ears to learn the outcome of the contest.

Welch has a twelve-hour start. The first to get the attention of certain Iowa people stands a chance of profiting largely through the acquisition at a low price, of lands at Alamitos, Back Bay and Signal Hill.

Hughes is a tourist of Williamsburg, Iowa. On his last trip home he enthused his friends with the possibilities of Southern California realty. They bought lots. Then the false tales of devastation in this region reached the cyclone belt, and the investors got cold feet.

They flooded El Hanka, at Long Beach, a former Iowa, with orders to get rid of their holdings at any price.

Hughes and Welch, showing their confidence in conditions here, jumped at the opportunity to make some money. Long Beach has its ears to the ground to learn who wins.

IN EAST TO GET MEN. Already emissaries have been sent to the East to secure men. In New York City there is at present a strike among the housewifery unions. The union bosses of San Francisco have laid plans to import the 5000 striking housewifery of New York to San Francisco.

This plan is to be blocked by the contractors, according to statements made by local men. These New York strikers are of the same ilk as the San Francisco strikers. They are the same men who have been browbeaten and harassed by the tontines for the last few years in San Francisco, and they will see to it that no union yoke is around the necks of the housewifery of the workingmen they will import.

This statement is but the gist of a dozen similar ones made by San Francisco contractors who have been making this city their headquarters for several days. They are doing the greater part of the talking in Los Angeles, and are working from this city.

They all see the opportunity to erase the blight of unionism from San Francisco, and their plans are laid accordingly.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

At the conclusion of a "demonstration" yesterday by a member of the Automobile Association, the Board of Public Works formally opened a campaign for better streets.

City Engineer Stafford approved the plans yesterday for a fifty-five-foot tunnel on North Hill street.

Rev. C. J. K. Jones failed to pass the Civil Service examination for director of study and research in the public library.

Commissioner of Court Rollins is taking testimony in the suit of Zakallaris against Cazacus. The case consists of a quarrel between two Greek storekeepers who want to dissolve partnership, but can't make their books come out straight.

The judges of the Superior Court met yesterday and decided upon a course of action when judicial business is resumed.

President John D. Pope of the Bar Association yesterday appointed a number of important standing committees.

AT THE CITY HALL.

CAMPAIGN FOR BETTER STREETS.

COMMISSIONER GETS STRIKING OBJECT LESSON.

Member of Automobile Association Shows Board of Public Works How to Bump the Bumps—Notes Taken En Route Resemble Trainings of Seismograph—Relief Promised.

A member of the Southern California Automobile Association bumped the Board of Public Works yesterday into a campaign for better streets. He didn't go to the City Hall and make complaints about the condition of certain thoroughfares; he just extended a gentle invitation to the three commissioners to take a ride.

Yesterday morning the board accepted the route had been carefully planned and the mahout didn't overlook any of the chuck holes. Yesterday afternoon the commissioners gently caressed some spots on their anatomies and decided to do something to improve the condition of some of the principal thoroughfares.

When the automobile was fairly under way Commissioner Edwards took notebook and pencil and started to record the location of the most distressing bumps. In the afternoon he looked ruefully at his notes. They resembled a seismograph tracing of the San Francisco earthquake.

Already warnings have been sent to the water department and to the utility companies that they must do better work at back filling after making excavations. And foremen of street crews have been asked for an explanation why the thoroughfares in their districts are not in better condition.

"We realize that this is the worst season of the year for broken streets," said Commissioner Edwards yesterday afternoon, "the rains have fallen heavily and many of the streets are washed badly. We hope to get the streets in good condition again, but we cannot do it all at once."

"On a number of streets we could trace the mains of the water company and the gas company for blocks. The back filling had not been done and the line of the mains could be traced by the depression in the surface of the streets."

"At a number of points the street car companies are to blame. Their rails do not line with the surface of the street; the lighting companies have some work to do, too."

"But I will say this for the utility companies, every one of them has promised to make any repairs that we suggest; they have agreed to repair work done as recently as two years ago. I do not see that we can ask anything more than that we can ask."

"Were it not for the fact that we are hampered for money, we would do a great deal more for the streets. The conditions are not as we would like them to be, but we are compelled to work short-handed."

Most of the territory covered on the automobile ride is in the Third, Fourth and Fifth Wards.

Here are a few off-hand translations from Commissioner Edwards's notebook:

Flourish street between Twelfth and Pico, and a portion of South Hill street, bear a striking resemblance to a relief map of the Grand Cañon.

West Sixteenth street has been suggested as a suitable inlet for the outfall sewer; little excavation would have to be done for the ditch.

Adams street west of Hoover reminds one of a morning's jaunt among the foothills.

Ninth street, east and west, might easily be mistaken for the approaches to the fortifications of Kottah Hill.

Robert boulevard, Normandie, Hall-dale and LaSalle streets are handsome thoroughfares, but the trail of the gas and water departments is over them all.

MUST TRY AGAIN.

Rev. C. J. K. Jones failed to qualify in the civil-service examination for director of study and research in the public library.

Yesterday afternoon the Civil Service Commission added the mysterious bundle containing the examination papers and announced the result. Rev. Mr. Jones's rating is 70.23 per cent. To qualify a rating of 75 per cent. is required.

The papers themselves explained the mystery of the examination. They had been prepared and marked by J. L. Elmsendorf, librarian of the public library of Buffalo, N. Y. In a letter to the board he said:

"I have been very lenient, giving as high a marking as fairness would allow; and in each case where there has been a question I have allowed the applicant the benefit of the doubt."

Rev. Mr. Jones's rating in detail is as follows:

General literature 74
Language 74
Religion and ethics 74
Government 73
Science 73
Arts, useful and fine 70
Library economy and technique 43

Total 70.23

An examination of the papers shows that Rev. Mr. Jones really passed a highly creditable examination. The trouble was with the list of qualifications named by the Library Board when the position of director of study and research was created. The position was made for Rev. Mr. Jones. In its endeavor to provide an examination that no others could pass the board went a step too far.

"I do not believe that the man lives who could pass that examination," said Secretary Spaulding of the Civil Service Commission. "A man might make a good showing in some of the subjects, but they are too widely diversified for one man to pass in them all."

Accompanying the marked papers were

was a bill from the Buffalo librarian for \$50 for services rendered.

Rev. Mr. Jones now holds the emergency position of director of study and research. He will probably be reappointed, and the board will ask for an examination of his list of qualifications slightly modified.

APPROVES PLANS.

CITY ENGINEER STAFFORD has passed favorably on the plans for a fifty-five-foot tunnel on North Hill street.

To the Board of Public Works he reported yesterday that the project is feasible, but that some of the estimates of cost are too low.

Lawrence Homes told the board that a contractor has offered to build the tunnel as proposed for \$100,000. The city engineer is of the opinion that this figure is at least \$25,000 too low.

Following a brief discussion the board asked its engineer to submit estimates of the cost of a fifty-five-foot tunnel, of a tunnel originally projected by the property owners, and of a double-bore tunnel.

The Los Angeles Railway Company has offered to bear one-half of the expense of the tunnel in return for permission to operate its cars there. It is desired as a short cut to Hollywood.

AT THE COURTHOUSE.

TANGLED TALE OF FRUIT MEN.

ZAKALLARIS AND CAZACUS ARE COURT PUZZLES.

Both Have a Story to Tell of How They Failed to Make Both Ends Meet, Finally Zakallaris Took Refuge at the Hot Springs With Shattered Nerve.

George Zakallaris and Pete Cazacus, with a number of their Greek friends, were in Judge Monroe's court yesterday before Court Commissioner Rollins, who was appointed referee to take testimony in the case. "The Commissioner is having a bad time and the attorneys were a weary look before the day closed, for the names that were sprung as each witness went forward to testify contained such a mixup of vowels and consonants that the reporter's pencil made only a blurred scratch on the paper."

All the trouble is about an accounting rendered necessary because one partner drew out money from the business. Zakallaris said he had a partner who drew out money from the business. Zakallaris said he had a partner who drew out money from the business.

The two men started in business on Main street in 1903 in a cigar and fruit store. On December of that year the books were made up and Zakallaris figured out that there was just \$21.15 coming to Cazacus. The latter didn't say anything, but waited for a chance. In May, 1904, there was another accounting and Cazacus made out that the profits due to Zakallaris were \$24.95. Zakallaris took the money, but looked grumpy.

In September, 1905, a third accounting was attempted, but neither Zakallaris nor his partner was able to work any few dollars of profit out of the other. The accounting resulted in a tie. Zakallaris brought suit to the matter straightened out, but Cazacus maintains that when the last examination of the books was made, a loss was shown of \$363.50, all of which he paid. At the same time too, he claimed, it was shown that Zakallaris had overdrawn from the business \$44.45.

When Cazacus asked his partner to pay back the overdraw and also his share of the losses, Zakallaris is alleged to have gone into the store, taken \$5 from the register, and handing the keys to the cashier, told him to tell Cazacus that he was very tired.

That was the last seen of Zakallaris for some time until he was found sweating out his grief at the Hot Springs. Messages were sent to him to come in and aid in straightening out the business, but he wouldn't budge.

Meantime Cazacus has restocked the store and has been carrying on business single-handed, and repudiates any claim of his erstwhile partner to the rejuvenated business. All of which makes a pretty tangle for the Commissioner to unravel, not to mention the names that can only be handled with the nut-crackers.

COMMITTEES NAMED.

THE LOCAL BAR ASSOCIATION. John D. Pope, who was elected president of the Los Angeles Bar Association at the annual meeting in February, yesterday named the various standing committees as follows:

Grievance Committee, H. C. Dillon, J. W. Swanwick, George R. Davis, E. C. Bailey and F. G. Pinlayson; Committee on Amendment of Laws, Oscar Mueller, E. A. Meserve, Joseph Scott, J. G. Scarborough and A. W. Hutton; Committee on Judicial Administration, Hunsaker, J. A. Gibson, John D. Works, Charles Wellborn and L. C. Gates; Committee on Legal Education, Willoughby Rodman, Frank M. Porter, George I. Cochran, Frederick Baker and E. W. Camp.

To the outside public the Grievance Committee is the most interesting, as it is this committee that considers complaints and charges preferred against attorneys by clients who claim that they have been wronged. At present the incoming committee will have to consider two cases in which charges have been preferred against practitioners at the local bar.

JUDGES CONFERENCE.

ARRANGE FOR BUSINESS. The continuation of legal holidays has given a set back to the hearing of the Superior Court, and yesterday all the judges met for the purpose of considering what method shall be followed upon the resumption of business.

To give these cases right of way in their order would merely result in disorganizing work in all the courts for months ahead, and it was realized that the conditions with regard to witnesses may have changed since the time when they ought to have gone to trial.

It was finally agreed that the fairest way to deal with this accumulated business will be for each judge to call the calendar on the first judicial day. Then all of these cases can be set to suit the attorneys and litigants just as was done in the first instance.

In order to get the business of the court in order and undertake all arrears before the summer vacation every department has been kept busy since the appointment of the additional judges. Instead of a judge continuing a case he might be unable to hear it would be side-tracked into another department where it could be tried that same day.

Sometimes judges have sat in the evening and the outcome of all this steady, persistent work has been that every calendar was clear when the San Francisco disaster gave the whole thing a set back.

COURTHOUSE NOTES.

BRETTIES MISCELLANEOUS.

BUTTS ARRESTED. E. G. Butts, the motorman on the car that ran down Mary Barnes Raulston, the nineteen months' old child, on April 18, at corner of Thirty-seventh street and Maple avenue, was arrested yesterday morning and arraigned before Justice Pierce. The charge of involuntary manslaughter stands against him. The bail was fixed at \$2000, and the time of examination set for May 14.

TURNED LOOSE. Antonio Re, the Italian miner who was sent to the county hospital a week ago charged insane, was turned loose by Judge Gibbs yesterday. He came from Indian Territory about a month ago and was celebrating his arrival in the land of sunshine and flowers with deep potations. The liquor turned a head, never very strong at best, and the miner became a raving maniac for the time being. Yesterday he appeared all right and was discharged with a warning.

WANTS MAINTENANCE. Mrs. Rildgard Whalen has brought suit against her husband, Edward Whalen, to compel him to afford her separate use of the house which she and her husband own jointly. She is married on May 20, 1904, in this city, and since that time the wife avers that her husband has deserted her several times and then returned just as suited his pleasure.

ARIZONA.

GIFTS PILE UP IN TERRITORY.

CONTRIBUTIONS HEAVY FOR SAN FRANCISCO SUFFERERS.

Warm-Hearted Generosity of the People Rushed Both Money and Supplies Out at the Earliest Date Possible—Many Organizations Among the Donors.

PHOENIX (Ariz.) May 1.—The list of Arizona's contributions to the relief of the needy in San Francisco is by no means complete, daily additions being made from all parts of the Territory. Nor can the amount of cash forwarded or the value of the supplies and clothing sent be accurately estimated, owing to the modesty of the donors, and the fact that the warm-hearted generosity of the people rushed out at the earliest date possible, and to different consignees.

It is probable that the value of the supplies and clothing sent will add at least \$20,000 to the subjoined list. Up to last Saturday, in the towns of Arizona the contributions of cash gave the following totals:

Phoenix \$15,000
Bisbee 11,000
Tucson 6,500
Prescott 4,000
Globe 3,000
Clifton and vicinity 2,500
Douglas 2,500
Yuma 1,500
Flagstaff 1,500
Tempe 1,500
Tombstone 1,000
Florence and vicinity 1,500
Mesa 1,500
Winslow 1,500
Williams 800
Kingman 500

Total cash reported \$77,400
Thus far, Phoenix has subscribed in cash \$11,200, to which is to be added, as yet unreported, the value of supplies and clothing sent. The County Supervisors sent \$2000 of public funds, the Shriners \$2000, the Elks \$1000, with \$500 additional offered by the Indian school contributed \$150, while \$125 came from a baseball game between rival teams of clerics, and \$14 from a dance given up by a couple of young women who wanted to increase the fund.

Bisbee has turned in nearly \$11,000 in cash, the most important contribution being \$2550 from the miners in the Copper Queen properties, who averaged \$25 to the man. The Masons, Elks and Eagles gave \$1000 each, the Pythians and Knights of Columbus \$500 each, and \$555 came from an entertainment. In the near-by town of Douglas the Copper Queen Company donated \$1000, and Prescott the County Supervisors voted \$2000 to the relief fund. Clerks of the Basford-Burnister Company sent a number of tents. At Globe the miners contributed a day's pay each, the subscription from the Old Dominion mine alone reaching \$200, the miners' union adding \$500, which was dispatched direct to Mayor Schmitt. The contribution credited to Clifton should be credited as well to the outlying camps of Morenci, Metcalf, Coronado and Shannon, and mainly came from miners and smelter hands. The greater part of the sum was raised through the Clifton Era.

At Yuma the Supervisors started the fund with a grant of twenty money, and the City Council followed with \$100. The Women's Club gathered \$400 and a benefit performance by the Elks netted \$200. The Arizona Lumber and Timber Company of Flagstaff started a subscription list with \$500, the company's employees adding \$50, and an entertainment given by the Elks netted \$100. A notable contribution in a great shipment of infants' clothing. In addition to the cash reported, valuable shipments of cheese, meat and foodstuffs were made from Tempe. The same was true of the neighboring town of Mesa.

Tucson is taking the lead within the Territory in the matter of furnishing food to the destitute upon the east-bound Southern Pacific trains. The deserving have been supplied with free meals at Yuma, Gila Bend, Maricopa, Casa Grande, Tucson and Bowie. Even yet about twenty-five persons a day are being fed. A large number of refugees have arrived in Arizona during the past week. Most of them are persons who are fleeing from the fire in the many of them being former Arizonians. Several scores have come to Phoenix, where, however, a few have sought assistance. Several Southern Arizona towns are being worked by professional mendicants and frauds, who have departed out of the territory with free transportation into the fresh pastures of the Southwest. Several fraudulent earthquake victims have been passed on eastward by the police in Tucson and Bisbee.

Under Bishop Grandjon's instructions, a special collection was taken yesterday in all the Catholic churches of Arizona. The total is expected to reach a couple of thousand dollars. The fire in the Southern Pacific office at San Francisco affected Tucson materially, in that it destroyed the plans for the new depot and offices at Tucson. It is feared that now the im-

provements will be delayed even for months, till new plans and specifications can be prepared by the over-worked draughtsmen at railroad headquarters.

IS THERE A MAN IN STORRS CASE?

INTIMATION THAT ANOTHER ARREST IS COMING.

Widow Prisoner and Her Sister Pleaded at Granting of Privilege of Bail, But She Was Unable to Secure It Last Night—Attorneys Clash.

Mrs. Alberta Storrs, under arrest charged with the murder of her husband, will have a preliminary hearing in the justice court at Monrovia next Wednesday if the District Attorney's office does not decree otherwise. In the meantime she will be permitted to give bail in \$10,000, which Earl Rogers assured the court was quite within her friends' encompassing.

Justice W. M. Northup, before whom the woman was produced in Monrovia yesterday, urged Attorney Fleming from the District Attorney's office to agree to the case being heard in spite of his office's belief that the governor has proclaimed. He has convinced that the justice's court for the time being was the only law in the land for the woman who has been held for three days without any definite step being made toward a hearing. In fairness to her, the justice wanted some action taken but declined to take upon himself the responsibility of forcing expense upon the county if the district attorney believed that litigation would grow out of a hearing given at this time.

"I will consent to the defendant's examination being set for May 9, in the belief that on or before that time the legal holidays have ceased. If at that time I feel differently about it, I will take steps that I consider necessary to protect the people. I consent for her to be admitted to bail, provided the sum is not less than \$10,000. In this I do not indicate any disparagement of the sheriff's office; I believe the officers have done their duty; they have done the best they could, but under the circumstances, the evidence is such that I feel warranted in consenting to bail."

Fleming stated that if the attorneys for the defense would secure a writ of mandamus from the Superior Court for a trial in the justice's court, it would relieve the District Attorney's office, as a great many hearings had been held up.

"This is not a legal argument," declared Earl Rogers; "it is an argument for the convenience of the District Attorney's office. If you will think for a moment, you will recall that the Superior Court is not in session. I challenge you to go on with this case. Your man here says he has his evidence, let us hear it."

The prosecuting attorney said that if forced to go ahead with a hearing of the legality of which he is not assured, the case would be dismissed and new proceedings brought. This Rogers, with the use of many original adjectives regarding Deputy Sheriff Franklin declared to be a threat. "These men standing around saying a man could not shoot himself with his feet crossed or his fingers crossed," came in for the attorney's ridicule.

Mrs. Storrs and her sister, Mrs. E. Kendall Cutler, received the news that the case would be set for May 9, and they were allowed with smiles. The officers betrayed no trace of chagrin, and Franklin wanted it particularly understood that the officers have acted all along in response to a well-defined demand for an investigation of the tragedy. This was even requested by members of the coroner's jury that returned the verdict of accidental death.

At the same time those who have followed the case closely believe that another arrest will be made before a hearing is reached in Mrs. Storrs' case, and that a man never before mentioned will be produced as witness, or as accessory to the crime with which the wife of Roland Storrs is charged.

Up to a late hour last night Mrs. Storrs had not secured bail.

Vose

A Piano

Of Sympathetic Tone
Of Responsive Action
Of Beautiful Case Design
Of Elegant Finish
Of Great Endurance
In short,
A Piano of Highest Character.

Fit to grace the most beautiful drawing-room or to add dignity to the studio of the greatest musician. It is to be found in more than fifty-five Thousand American Homes. Two thousand alone are in Southern California homes.

WE SELL THE VOSE
We arrange terms for payment and accept other plans in part exchange. You are urged to examine the many different styles which we carry.

Crack Amateur Organizations Believe They Could Supply Article of Ball to the Fans' Liking—Several Surrounding Towns Are Possibilities.

Plans are under way to supply Los Angeles with baseball during the summer if the Looelos drop out of the Pacific Coast League.

There are now in the city four teams that can play league ball, and in the event of the sold being left vacant efforts will be made to organize a brush league, including the following teams and towns: Los Angeles, Hoegs Flage and another; Santa Ana, San Diego and San Bernardino.

Thus far no definite steps have been taken in this direction, but the matter has been talked over between the managers of the Los Angeles teams, and during the coming week will be gone into thoroughly and the outside towns named communicated with.

As to where the brush league would play is a very unsettled question. Just how these games would draw is a matter of speculation, and may be greatly upon the article of ball put up. It often occurs that the brush league dishes up a superior article, and in the make-up of the four Los Angeles teams there is material that should shine on a league diamond.

It was first thought best to organize a city league with these teams, and whatever semi-professional organizations came forward for entrance, but this is not now thought feasible. The adding of several other towns to the league is believed, would cause a spirit of rivalry that would tend to bring out good crowds.

Some years ago in the all-star amateur championship the games drew well as league ball, but several attempts to maintain a brush league subsequently have failed.

The prospects are that the proposed league would easily prove a drawing card, and the four Los Angeles teams may pull off a few sample games at an early date as a feeler.

The entire matter will be settled tomorrow after a conference with the various baseball managers and communication with the towns interested.

EWING HAS SCHEME. LEAGUE MEETING PROMISED.

It is hoped, through a meeting of the baseball magnates in this city, in the near future, to arrange a new schedule and bring the present chaotic state of affairs to a head. Cal Ewing, manager of the San Francisco club, wired yesterday that such a meeting will be called soon. This meeting has been promised Los Angeles. The date has not been announced, but it is believed the magnates will gather next week.

The Looelos' manager announces that the Los Angeles team will remain in the league if President Burt can show him the support promised by the eastern leagues will be forthcoming, and that he will not be compelled to send good money after bad.

GIRLS PLAY HARD GAME. High School Basketball Team Scores Over Marlborough in Yesterday's Game.

The basketball game yesterday afternoon on the University court between the Los Angeles High School team and the Marlborough team was a hard fought battle. The Los Angeles team, led by Miss Fannie Furman, the former star of the Pasadena High School team, were loud in their praise of her. She used the whistle at just the right time and did not overlook and fouls that were made by either team.

The teams lined up as follows: Marlborough: forward, L. A. H. M. Grant; forward, M. Hunter; center, M. Hunter; guard, M. Hunter; guard, M. Hunter. Referee—Miss Furman of Pasadena.

Referee—Mrs. Wiltshire. Time of halves—12 minutes. Goals scored in first half: Plummer, 3 field and 6 fouls; Long 1 field; Grant, 4 fouls.

Goals scored in second half: Plummer, 1 field and 2 fouls; Kendrick, 1 field; Grant, 1 foul.

Final score—L. A. H. S. 18; Marlborough, 7.

MAGUIRE STILL AHEAD. Loser in Last Night's Billiard Match to Kennedy, But Is Still Far in Lead.

Last night's play in the billiard championship at Berry's rooms, was the slowest of the three games played for it took forty-two innings for Maguire to make 300 points. Kennedy played the best billiards, for he made a total of 327, but his stroke was not good enough for him to make up the number of points he was behind Maguire on the two previous nights' play.

There were a number of pretty shots made, and yet the game was slow, notwithstanding the fact that both men made good high runs.

Maguire's high runs were 35, 32, 28 and 16, and his average was 64.5; Kennedy's high runs were 28, 26, 24 and 13, and his average was 52.5.

The three nights' Kennedy made high runs of 42, 40, 37, 32 and 22, and his night's average was 73.6; and his grand average 74.5.

The final block of 200 points will be played this evening, and with the score at present standing, 900 to 812 in favor of Maguire, Kennedy must make up eighty-eight points before he is even with Maguire. This is a big lead, and while Kennedy can make runs of 100, the chances are that Maguire, who generally plays a steady, consistent game, will win the championship.

NATIONAL LEAGUE. MARONEY WAS WILD. (THE ASSOCIATED PRESS—P.M.) CINCINNATI, May 2.—Maroney's lack of control was responsible for another defeat yesterday at Boston today. New York's runs came as a result of errors on the field.

Score: New York, 4; Cincinnati, 2. Errors: New York, 2; Cincinnati, 1.

SAINTS STILL LOSING. (THE ASSOCIATED PRESS—P.M.) ST. LOUIS, May 2.—St. Louis failed to win a game yesterday.

Score: St. Louis, 0; Cincinnati, 1. Errors: St. Louis, 1; Cincinnati, 0.

ST. LOUIS, May 2.—St. Louis failed to win a game yesterday.

Score: St. Louis, 0; Cincinnati, 1. Errors: St. Louis, 1; Cincinnati, 0.

HERMAN HOLDS AN "AT HOME."

FANS FLOCK TO THE TRAINING QUARTERS.

Little Fighter Has Developed Marvelous Speed and Lung Power. Boxed Alternately With Bartly and Baker, the Amateur Champion. Battle Will Be on Scientific Lines.

Yesterday at the Bohemian cottage, and a large contingent of sports and fight fans visited his training camp and saw him work out.

Herman was a revelation of speed, and had ample opportunity to show it in his boxing stunts with Mike Bartly and Baker, who won the amateur featherweight championship of the world at the recent boxing tournament at San Francisco.

Both these boys are fast and shifty, and Herman ran through their rounds with them. He would take on Bartly for one round, and then Bartly would sail in and mix it. During this time the fans saw the aggressive fighter. He has directed his training toward speed, and this he has to throw away. If there were those who thought he would not put a glove on Abe Attell, they came back home with opinions decidedly averted.

Herman's wind is another feature of his condition, and this was shown in the medicine ball work and rope skipping. He would handle the ball for twenty minutes on a stretch, skip the rope, shadow fight and punch the bag, always finishing fresh and apparently not at all worried for breath.

If the coming battle is to be a boxing match, Herman will be able to hold his own in the going, and if it is to be a get in and wallow affair he will prove a dangerous proposition for Attell or any one else.

The performance yesterday went far toward convincing the fans that the coming battle will be a scientific affair, the like of which has probably never been seen before in Los Angeles. There are few who anticipate a slugfest match, for this is foreign to both men's style of fighting.

It will be just the kind of a go that will bring out the finest points of scientific boxing, clever footwork and carefully-planned ring generalship, in which both are past masters, with Attell a shade to the good.

The sale of seats thus far has been very good, all those who had purchased seats for the Herman-Britt tea party ordering their reservations held for the Attell-Herman go.

Both Herman and Attell have agreed to accept a purse rather than a percentage of the gate receipts, and the amount for which they will contest will be \$2500, which will be split 60 per cent. to the winner and 40 per cent. to the loser.

SHOWER GIFTS AND FLOWERS.

PAGAN SCENES MARK CLOSING OF GREAT RACE.

Americans Capture Eleven Firsts and Lead in Great Olympic Contests—Giving of Prizes Will Close International Athletic Meet Today. Canadian Won the Marathon Race.

(BY THE ASSOCIATED PRESS—P.M.) ATHENS, May 1.—The Marathon race, the principal event of the Olympic games, run over the hills and along the coast line from the ancient battlefield of Marathon to Athens, was won today by William Sherring of Hamilton, Can. Eight minutes behind him was Svamberg, a Swede, and W. G. Frank of the Irish-American Athletic Club of New York.

At the third, two minutes behind the Swedish runner, Sherring's time was 2h. 51m. 23.5s. Probably fifteen thousand persons witnessed the finish of the race.

Classified by nationality the runners consisted of twenty-six Greeks, seven Britons, including Canadians and Australians, five Americans, three Germans, two Frenchmen, two Italians, three Swis, one Belgian, one Dane and two Egyptians. The contestants started in three lines one meter apart, at exactly 2 o'clock. The race started at a hot pace. At the tenth kilometer W. C. Frank, was leading, followed by the Bohemian, Bechenaky. At the fifteenth kilometer Frank was still ahead, but Daly, Ireland, had taken the lead.

At the twentieth kilometer, which was reached at 4:10 p.m., Blake was leading, followed by Frank Sherring. The latter was slowly gaining on his opponents. Beginning the last ten kilometers of the race Frank was again leading, but obviously distressed; Sherring was second and Blake third. The time at this point was 4:40 o'clock. Sherring was running magnificently, but Daly had stopped to rest. Petri had dropped out on account of stomach trouble. Sherring now speedily took the lead, followed by Svamberg, the Swede, and Frank. When he found himself well ahead, Sherring began to walk, giving himself great reserve for the final sprint. Whenever he saw his opponents approaching he resumed running, and in this manner they ran the last kilometers of the race.

The crowd in the Stadium grew into roars as at 5:50 p.m. a cavalry officer, followed by a single runner, was seen approaching. At the gates of the Stadium Sherring, smiling and apparently not at all distressed, was joined by Crown Prince Constantine, who ran alongside until he ended his journey in front of King George and Queen Olga. The King handed Sherring a bouquet, while ladies showered flowers and gifts upon him.

The Greek style discus-throwing contest was won by the Finlander, Jervin, with 25 meters; Georgandae, Greek, second, with 22 meters, 80 centimeters; Mulin, Hungarian, third.

The Olympic games committee published today prior to the presentation of the prizes, a full list of the winners. The Americans took eight prizes, six seconds and five thirds out of twenty-nine events, in many of which, however, Americans did not compete.

The 2000-meter walk was decided today. Stantics, Hungary, won; time 15m. 18.5s.

Sir Huen Won Derby. LOUISVILLE (Ky.) May 2.—The Kentucky Derby, one mile and a quarter, fourth race: Sir Huen won, Lady Navarre second, James Reddick third; time 2:08 4-5. Sir Huen won by two lengths.

Outsider Gallops In. LONDON, May 2.—At Newmarket today the 2000 guineas stakes for colts and fillies foaled in 1902, distance one mile, was won by Gorgos, a rank outsider, at 20 to 1.

Yorkie Whitewashed. LONDON, May 2.—Jay Gould of New Jersey, in the amateur court tennis championship contest, the American Club, today defeated W. V. Yorkie by 3 to 0.

HINTS ABOUT COLDS.

Four Specially Sensitive Points on the Body's Surface Should Be Guarded.

(Washington Times.) If people would remember that there are four points on the surface of the body which are especially sensitive to draughts and dampness we should hear fewer complaints about colds.

These susceptible areas, which some one has aptly dubbed "cold spots," are the parts through which a chill most easily excites the nervous disturbance, which is at the bottom of all colds, for the microbes which are believed to be the active agents in producing a cold, can not so long as the nervous equilibrium of the mucous membrane is maintained.

One of this cold spots, which is so well known to every one, is the throat, the back part of the head and neck.

The feet constitute another universally recognized portal through which mischief comes. Wet feet are generally looked upon as dangerous, but wet feet are powerless for all it does as long as they are not cold.

A pedestrian might walk all day with wet feet and suffer no harm, but let him stop for any length of time so as to permit of the slowing of the local circulation and the wet feet will quickly become chilled, and the mischief is done.

Another vulnerable area is the abdomen. The sterner sex, which is usually the wiser in matter of dress, usually keeps this vital part well protected against atmospheric influences, but women with curious inconsistency carefully protect their shoulders and wraps their waists, but leave their abdomens open.

Finally there is another peculiarly sensitive area, the existence of which is not even suspected by most people, but which will face a bitter wind with a never thought of shielding her body with anything more substantial than light undergarments and a thin cloth skirt.

Who CROLES ARE. English Equivalent of the Word Said to Be "Creature"—Where Word Comes From.

(Pensacola (Fla.) News.) What is the correct meaning of the term "crole"? Of course, you know, or at least you think you know. It is a term of peculiarly American significance and is in such common use among us that few people know what it means to them, but the trouble is that it does not mean the same to everybody.

A party of young men was disputing in regard to the exact meaning of the word "crole" some few evenings ago and a newspaper man was called upon to give his definition of it. He did so and found afterward that quite a number of his readers had written to him to disagree with his definition.

The meaning of the word "crole" is the definition according to Webster: "Crole, n. (Fr. creole, from Sp. criollo, meaning properly created). 1. One born in America or the West Indies of European ancestors. 2. One born within or near the tropics. Note: The term negro is employed in the English West Indies to distinguish the negroes born there from the Africans imported during the time of the slave trade. 3. An application of this term to the colored people has led to an idea common in some parts of the United States, though wholly unfounded, that it implies an admixture greater or less of African blood."—R. Hildreth.

The same according to Worcester: "Crole (Fr. creole, Sp. criollo; Fr. creole). A native of Spanish, or of the West Indies, born of European parents or descended from European ancestors. 2. A native of the West Indies, born of mixed blood, as the mulatto, born of a negro mother and the mulatto, born of an Indian mother. N. B.—The Spanish and Portuguese apply the term to the blacks born in their colonies, never to whites. 3. A native of the West Indies, whether he be black, white or of the colored population."—Carmichael.

A reference note in Webster says that the Spanish word "criollo," from which the French got the word "crole," is a contraction of the word criadillo, the diminutive of "criollo," meaning created. Thus it is seen that of the two words, French creole and Spanish criollo, the true English equivalent is created.

The Mikado's Home Life. It is well known that the Emperor of Japan finds great pleasure and comfort in the society of the Empress, says the World's Work. When the day's work is over—and His Majesty's working day, beginning at dawn and frequently continuing into the night, is a strenuous one—he repairs to her apartments, and they talk over things very fully and confidentially. It is Her Majesty's delight to find her interests and pleasures for these moments of relaxation, to use her woman's wit to draw the Emperor's mind from the cares of state to pleasant and cheerful subjects. A new book, a picture, an album such as the one sent to Her Majesty in commemoration of the Japanese prince in New York last spring—these things are set aside for the Emperor's half-hour of rest and recreation. Then the attendant withdraw, the only one who refuses to be dismissed being the Emperor's little Yorkshire terrier, a venerable court lady now some seventeen years old, who never leaves her master's side. With the assurance of impunity she jumps on the Emperor's lap and listens to conversation which no one else is permitted to hear.

PATENT KID FULL DRESS OXFORDS

A very stylish model with a certain picturesque and winning air that distinguishes it from the ordinary kind of common styles. Built of patent kid with wide grain silk ties. Price only \$3.50.

Good Demand for Property
All Over City.

Agents find a very good demand for property of all classes. The sales include building lots, fine residences and income renting property. An interesting sale is reported through the agency of C. P. Doyle of fine residence on two lots making 10,000 feet, on West Sixth street near Park View avenue, with a view of great beauty straight down the last-named avenue.

LIAR OF THE ROCKIES.
Denver "Investment Company" Advertises That Los Angeles Property Has Shrunk One-half in Value.
Shades of Ananias and Hagar! Their mendacity has been nearly rivaled. The Denver Republican, in its recent issue, displays in big headlines the startling statement that real estate values in Los Angeles and vicinity have shrunk over half since the earthquake over 400 miles away from this city. In the same breath is modestly pointed out the superiority of real estate in the vicinity of Denver.
The Realty Board of Los Angeles yesterday took notice of this canard, which was perpetrated by a real estate firm of Denver.
Telegrams were immediately sent to the Republican, branding the statements as "obscure falsehoods," and asking that they be corrected. At the same time the board wired Fred H. Chamberlain, president of the Real Estate Exchange of Denver, a brother of W. H. Chamberlain of this city, asking that Southern California be given a square deal.
The information was also given that real estate values have been bristling since the disaster up North, and to certain extent prices have stiffened through the belief of Los Angeles realty men and others that the hard luck of San Francisco will compel large number of big business houses to remove to this city, and will result in a lasting benefit to Los Angeles.
The lying statement referred to is the advertisement of a real estate concern of Denver, calling itself the Lee-Jackson Investment Company. William Scott Lee, president, but had been published in such shape as to give it the semblance of news matter.
It was claimed in the same advertisement that Southern California is on the verge of bankruptcy, owing to the "failure of its climate" during the last winter. The startling fact that Los Angeles lives by and for only the tourist traffic "which has almost ceased," is also told in lurid words.
Secretary Burdett of the Los Angeles Realty Board met with a few other members and officials and took action yesterday, without waiting to call a meeting of the board's meeting will be held today.
It was at first considered best to run a display advertisement in Denver papers placing the lie where it belongs, but the plan of wiring to those interested was adopted, and the advertisement is in way of the Denver issue Chamber of Commerce.

Four-flat building, Nos. 230-232 South Flower street, sold by Willis C. Stort, through G. M. Giffen, to Nelson Van Fleet, for \$15,000.

and over Westlake Park. By this sale C. M. Shannon transfers to Ada Whitling a beautiful home at \$22,000. The same agency reports the sale of 95,246 feet on the west side of Harvard boulevard just north of Wilshire to Dr. Mary J. Green for \$4750. The buyer intends to build a pretty bungalow for her home.

Another sale by the same agency is a lot 50x140 feet on West Seventh street overlooking Westlake and Westlake Park. It is unimproved and was sold to Perry Whiting for \$15,000. The buyer will improve it at an early date. The seller, Mrs. Knibbs, was represented in this sale by the firm of Mines & Parrish.

Alice Hall Harrison has bought from Theresa Eastman the southwest corner of Ninth and Hemlock streets, a lot 50x120 feet to a 20-foot alley, improved with four cottages that pay a rental of \$80 a month, for \$16,000. The Sunset Fuel and Feed Company has purchased for a site for their wholesale business the southwest corner of Thirty-second street and Maple avenue, 150x170 feet, for \$6500. The sellers were T. Y. Johnson and John Andrews. The buyer will improve the property at once as a wholesale depot for its fuel and kindred business.

Among other sales is a fine thirty-four-acre walnut orchard for \$12,000, a beautiful house and lot in La Crescenta for \$7000, a fine corner on Figueroa street at \$10,000, a lodging-house property on West Second street, close in, at \$12,500, and a small cottage on South Flower street, for \$7000; also the corner of Figueroa and Sixth streets for \$65,000.

SIXTH AND FIGUEROA.
The C. J. Heyler Company has sold for \$45,000 cash, for Matson Hill, Charles E. Seaman, Harry G. Mines and Thomas J. Lendrum, to Vail & Gates, the southeast corner of Figueroa and Sixth streets, with a frontage of 50 feet on Sixth street and 125 feet on Figueroa street. There is a three-story frame building, three cottages which covers about one-third of the lot, and is rented for \$2250 per year. Vail & Gates buy for an investment. Several important sales have been made recently in this immediate vicinity. The new broad-gauge car line on Sixth street is attracting attention to these corners, where three important car lines now intersect. It is rapidly becoming good business property. The conveyance to Vail & Gates was made by the Title Insurance and Trust Company, which held title for the owners under a trust agreement. These trust agreements are becoming more and more popular with owners having undivided interests.

James Meneses & Co. report these sales: George Honnig to H. McPhail, thirty-four-acre walnut grove at Brookhurst, improved with modern buildings, for \$12,000.
P. C. White to Louis Brand the Villa Esperanza property in La Crescenta, consisting of ten acres and ten-room residence. Buyer will occupy for a home, \$7000.

AT WALNUT DRIVE.
The sale is reported of the northeast corner of Figueroa street and Walnut Drive, fronting 122 feet on the former thoroughfare by 161 feet on the latter, was closed yesterday at \$19,000 cash. A property was purchased from Emma E. Hough by Thomas O'Neill and is to be held as an investment. The sale was negotiated by the Herron Realty Company.

The same firm reports the sale for Mildred E. Price to Paul A. Crippen of a lot on the north side of Twenty-first street between Cimarron and Hermosa, 50x125 feet, \$1750.
Also for a lot on the east side of Fourth avenue, Arlington Heights, between Grant and Washington streets, 50x140 feet, \$1325. Sale was made with cooperation of George J. Cote.
Charles O. Goodwin has sold to Walter Hout for W. H. Wagner a sixteen-room house and lot 26x50 feet, No. 508 West Second street near Olive street. Price \$12,500. Same agent also sells to Anna C. Gregory for Walter Hout a six-room house and lot No. 228 South Flower street; price \$7800.

When making their railroad arrangements for return home to Michigan, Indiana, Ohio, New York or New England, will do well to call at the office of the New York Central Lines, No. 20 West Fourth st.

truth about earthquakes.
Chamber of Commerce to Send Out
Fact of Absence of Shakes in Los Angeles.
Aside from the customary large amount of relief business, there was little but routine work done yesterday at the directors' meeting of the Chamber of Commerce.
Several requests were made of the directors to supply stereoscopic slides for use in the East in showing the present condition of Los Angeles and vicinity, and the secretary was instructed to provide these slides in cases where he thinks they can be used to advantage.
A delegation from the Promotion Committee of the National Baptist Convention, of which C. H. Anderson was spokesman, stated that it is the desire of the colored people of this city to hold a convention here in September, and they requested to assistance of the chamber in raising funds. This matter was referred to the Committee on Finance.
The Statistical Committee was requested to prepare a statement to be published in the leading papers of the country, to the effect that Los Angeles was in no way affected by the earthquake. This is necessary in order to correct the erroneous reports certain fakers sent broadcast throughout the country. The moral support of the chamber was offered for the coming State Fair in Sacramento, and the counties of Southern California were asked to lend what aid they can.
R. Davis, attorney, and A. B. Benion, architect, were admitted to membership.

Thin Hair
Yes! We had noticed that your hair was looking pretty thin, and that it lacked luster and life. But we didn't like to speak of it! Of course you know that Ayer's Hair Vigor is a regular hair-grower, makes the hair soft and smooth, gives it life and strength. This isn't the kind of hair that falls out! And, too, it keeps the scalp so clean and healthy.

Catspaw Customers.

The story of the monkey who used the cat's paw to pull the chestnuts out of the fire, finds new illustrations daily. When a dealer sells a customer a substitute for MENNEN'S BORATED TALCUM, he does so because the substitute pays him a bigger profit. He makes the customer his catspaw to rake in a few extra dollars.
It is not pleasant to be made a catspaw, especially when you pay for the opportunity of being injured. Is it not foolish to pay for the opportunity to use *dear old* imitations of MENNEN'S BORATED TALCUM, the standard powder of the world? Think it over.
Have you tried MENNEN'S VIOLET BORATED TALCUM TOILET POWDER? Ladies partial to violet perfume will find Mennen's Violet Powder fragrant with the odor of fresh plucked Parma violets.

QUAKE EXPERT IS OPTIMISTIC.

NO DANGER TO THIS CITY FROM
SEISMIC SHAKES.

Former Architect Known Here Says
That Properly Constructed Fire-
Proof Buildings of Substantial Ma-
terial Is All That Is Necessary for
Los Angeles.

Regarding earthquakes in general
and the San Francisco quake in par-
ticular, J. S. Hurst, of this city, a for-
mer architect, who was in San Fran-
cisco at the time, makes some per-
tinent observations.

When the earthquake visited San
Francisco on April 18, Mr. Hurst and
his wife, who had become familiar
with earthquakes in other countries,
arose and stood in the doorway be-
tween a bedroom and a private hall
to protect themselves from falling
plaster. After the quake they returned
to bed and went to sleep. They were
on the fifth floor of a brick building
and undoubtedly felt the heaviest shake
as much as most people in the city.
They were awakened soon after by a
shock which was less severe. They
heard cries in the street and were
surprised to learn the extent to which
the people were terrified; many of
them were scantily clad and were run-
ning through the streets barefooted.

"I noticed that the Japanese, who are
familiar with earthquakes, went about
their business as calmly and uncom-
cerned as though nothing had hap-
pened. In 1894 a tornado killed five
tim eases many people and destroyed
five times as much property as were
killed and destroyed by the earthquake
in San Francisco. The point I want
to make clear is that it was the fire
and not the earthquake that destroyed
San Francisco. Some people entertain
the foolish fancy that there is danger
of an earthquake in Los Angeles
simply because it is in California. They
do not stop to consider that this city
is five hundred miles away from San
Francisco; that the shock was not felt
here, and, but for modern means of
communication, a week or more would
have elapsed before Los Angeles would
have heard of the earthquake. This
city is in no danger of an earthquake.

"Aside from the damage done to the
City Hall and the postoffice, the total
damage to San Francisco from the
earthquake would not have exceeded
\$10,000,000. The damage to modern steel
structures, substantial buildings and
frame houses were practically nothing."
Mr. Hurst, like many other
architects and business men, is of the
opinion that had there been iron doors
and shutters to the windows of the
Call building, Crocker-Wheeler build-
ing, Bank of America, Exchange St. Fran-
cisco Hotel and other buildings, they
would have escaped with little injury
and no loss of furniture and contents.
Mr. Hurst said that the fire demon-
strated that granite is incapable of
withstanding heat.

"Steel frames, with steel mesh and
staff, afford the best protection from
both earthquake and fire," said Mr.
Hurst. "A solid cement building would
be liable to succumb to a severe earth-
quake shock, and, theoretically, would
not be ideal composition for withstand-
ing fire, as five-sixths of the cement is
composed of granite."

Mr. Hurst spent two years in the
southern part of the North American
continent, where earthquakes are of
frequent occurrence and cause but lit-
tle alarm to the people and no damage
to either people or property, because
the buildings are constructed espe-
cially to withstand the vibrations of
earthquakes. A great cathedral in the
City of Mexico has stood for 450 years
and has probably been subjected to no
less than one hundred earthquake
shocks as severe as the one which vi-
sited San Francisco, yet there is not
even a crack in the walls.

"The people of Los Angeles have no
more reason to fear earthquakes than
the people of Denver, Chicago or New
York. Proper protection against fire
has not been exercised in the construc-
tion of buildings in the past. Estab-
lishment of fire limits within which no
wooden buildings may be erected, and
no building of any other material in
which wood is used for supports and
floors, is necessary to insure Los An-
geles against the fate that has over-
taken San Francisco."

AMAZED IN GOLDEN GATE.
Man Who Entered Two Days After
San Francisco Disaster Tells of
Sight That Stunned.

Those who have sailed in through the
Golden Gate after a trans-Pacific voy-
age, may possibly picture in some
small degree the feelings and sensa-
tions of F. E. Lyman, Jr., of Honolulu,
whose first intimation of the San Fran-
cisco disaster was the pile of black-
ened ruins still smoldering two days
after the earthquake and fire.

Mr. Lyman left Honolulu aboard one
of the sailing vessels of his company
for a pleasure trip to San Francisco,
and came in sight of the Golden Gate
Friday afternoon. As they came
nearer the coast all on board remarked
the curious absence of all signs of
shipping and human activity.

"There were no pilot boats outside
to meet us," says Mr. Lyman, who is
spending a few days in Los Angeles.
"There were no boats of any descrip-
tion coming out or going in through
the Golden Gate. We did not know
what to make of it all. As we came
nearer we were amazed at our in-
ability to discover the slightest trace of
a human being about the Cliff House,
on the beach, or on the heights above.
There were no cars to be seen, and
nothing stirred on shore.

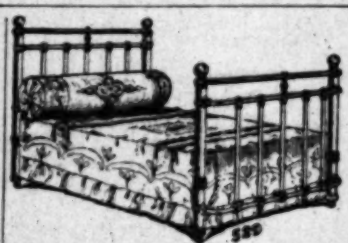

"The sky had been overcast, and it
was a murky, ominous day. Con-
fidence ran high as we came closer, and
still failed to see any sign of life
along a shore usually so busy and
teeming with strenuous activity. The
captain tried to explain the absence of
pilot boats and the apparent cessa-
tion of shipping on the assumption of
a strike along the water front, but
that failed to explain the funeral
aspect of the city in general.

"After a consultation with his of-
ficers, the captain decided to run in
through the Golden Gate without a
pilot, as he knew the channel well.
As we came well inside, we caught
our first glimpse of life and anima-
tion in the movement of boats crossing
the bay from the wharves near Mar-
ket street. That part of the city about
Fort Point was still standing, and it
was not until we rounded the point
that the full picture of ruin and desola-
tion burst upon us with the sudden-
ness of a picture disclosed through the
withdrawal of a curtain.

"I shall never forget the vivid im-
pression that scene made on my mind.
All of us were simply stunned, and
amusement for we had not had the
slightest intimation of any sort of the
great disaster which had befallen the
city."

LYON-MCKINNEY-SMITH CO.
652 SO BROADWAY—AT SEVENTH

New Sewer Caves in, Killing a Man.

Taking the buried body of John Redulovich out of Centennial street trench.

John Redulovich, a laborer employed
by the Alsop Construction Company
in the excavation of a sewer trench on
Sunset boulevard, near Centennial
street, was killed by a cave-in yester-
day morning at 1:30 o'clock, and an-
other workman, Henry Yeekes, was
slightly injured. Two other men were
in the trench when the crash came,
but escaped with bruises.

The company commenced work yester-
day morning with a big ditch ma-
chine to dig a trench along the north
side of Bellevue avenue from Centen-
nial west, and at the time of the cave-
in had finished fifty feet of the trench,
about forty inches wide and twelve
feet deep. The soil there for a depth
of about eight feet is yellow shale
resting on adobe, and the trench was
braced every four feet with 2x8 pine
planks. Four men were in the trench
when the braces and at 11:30 o'clock,
without warning, twenty feet of the
north or upper bank of the trench
caved in. The men saw the wall of
shale slipping off the adobe founda-
tion and scrambled away from it as
best they could. Two of them got
away uninjured, but Redulovich was
completely buried under a monster
cloud of earth, and Yeekes was half
buried, being saved by the braces that

were jammed against the south side
of the trench. Yeekes was taken out at
once and went to the Receiving Hospi-
tal and after a short rest walked away
from the building. Willing hands at once
set to work digging out Redulovich
and after some minutes he was found,
but life was extinct. The body was
taken to Garrett's undertaking parlors.
All of the men are Slavonians and
have been working for the company
some weeks. Redulovich lived on
Castelar street, and leaves a widow and
three children.

WANTED IN TULARE.
Two Portuguese, Accused of Obtain-
ing Money Under False Pretenses,
Arrested Here

D. A. Maris and Luis Miguel, who
are wanted at Tulare on a charge of
obtaining money under false pretenses,
were arrested last evening in this city
by Deputy Sheriffs Cleveland and Se-
pulveda. They had been engaged in
business in the northern county and
it is said the accusation against them
is based on irregularities discovered
after they had left there for Los
Angeles.

The arrest was made in accordance
with a telegraphic request received
by Sheriff White from Constable J. C.
Virden at Tulare. The men reached
here with a woman, supposed to be
Mrs. Maris, and were traced by the
deputies to a house at No. 7174 West
Jefferson street, where the arrests were
made.

MILK BOTTLE "BILLY."
Unknown Man Smashes George Lan-
caster on Head With Glass Weapon
and Just Escapes Bulet.

George W. Lancaster reported to the
police yesterday that as he was near-
ing his home, No. 442 Eastlake avenue,
about 9 o'clock Monday night, he was
attacked by an unknown man who
used a milk bottle as a weapon.
Lancaster says he had no warning of
the unconventional attack, until he felt
the blow on his head. Drawing a re-
volver, Lancaster fired, but the bullet
went into space, for the man had dis-
appeared.

ANOTHER FULL PAGE KNOCK BY HEARST'S NEW YORK NEWSPAPER.

One of the fiercest blows given to Los Angeles during the earthquake excitement was a full-page pink shocker printed by Hearst's New York Journal, April 19. The type was of the most screaming sort and it asserted that buildings were toppling over in Los Angeles and people were running into the streets, screaming with fear of death. Not the slightest attention was paid by this New York sheet to the Associated Press telegram which it had received at that time, stating the fact that not even a pane of glass had been broken by the slight temblor in Los Angeles which many residents did not even feel. The Times reproduces herewith a photographed facsimile of this monstrosity of Hearst's:

THE WEATHER: Fair tonight, Friday partly cloudy, light to fresh southerly winds. BASEBALL AND BRACING NEW YORK JOURNAL 11TH FINAL EDITION 8 Pages W. H. HEARST 18 Pages NEW YORK, APRIL 19, 1906. THURSDAY. PRICE ONE CENT.

ANOTHER EARTHQUAKE!

LOS ANGELES! LOS ANGELES! LOS ANGELES!

POOLROOM MEN TO FIGHT BACK. WILL ARREST BOOKIES. BUILDINGS SWAY; WHOLE CITY PANIC STRICKEN! Two severe earthquake shocks occurred in Los Angeles late this afternoon. The city is panic-stricken, and the wires from that city are

Two irresponsible wretches who sent east fake telegrams about an imaginary earthquake in Los Angeles have been kicked out of two small newspaper offices in this city; but the Hearst newspapers pat on the back the rascals perpetrating such outrages for them. They put a premium on that sort of thing. The offer of the Los Angeles Examiner to show at the local telegraph offices what it telegraphed about a baby temblor is ridiculous in view of the fact that it sends news east over its own wire.

HARD JOLT FOR HEARST PRATER. BLIND-EYED BOOSTER BOUNCED FROM RELIEF CAMP. ...

QUAKE BRINGS TOURISTS BACK.

MANY HEAVY LOSERS CROSS ATLANTIC QUICKLY. Reach New York on the Kron Prinz Wilhelm on Which Some of Them Made the Outgoing Trip Also—Several Are Still Uncertain as to Extent of Their Misfortunes.

Genuine Craftsman Furniture

From the Shops of Gustav Stickley

There is not a line of mission furniture on the market that compares favorably with the old mission styles made at the shops of this famous Craftsman. This furniture may well be called perfect furniture for every part is made entirely by hand and every joint is mortised and pinned so that it fits perfectly. It is put through a genuine fuming process that gives it the superior finish so noticeable in all of this furniture.

We are sole agents in this territory and are now showing a large line. We have received several shipments lately which are ready for your inspection. We ask you to call and see our display at your earliest convenience. You will find in this showing furniture for every room in the house, as well as a large assortment of excellent pieces for the office. Desks, chairs, tables, rockers, sofas, Davenport, ladies' desks, etc.

Niles Pease Furniture Co.

439-441-443 South Spring St.

REFEREE SALE

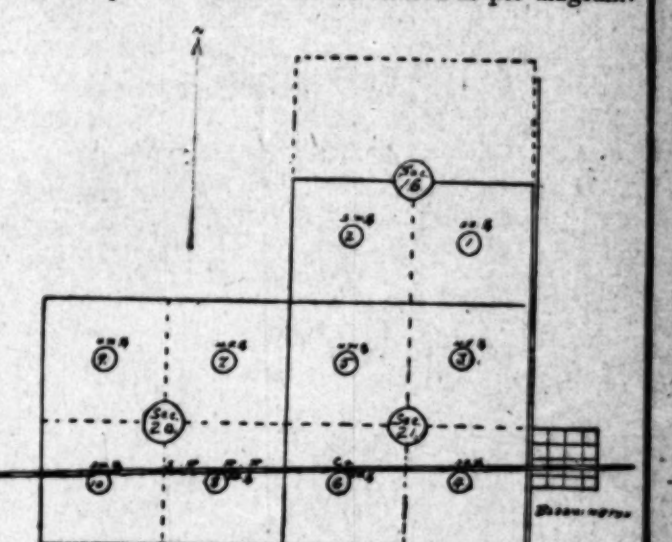

We will offer two quarter sections in Section No. 16, four quarter sections in Section No. 20, and four quarter sections in Section No. 21, belonging to the estate of Kate Johnson, deceased, and located six miles from San Bernardino, San Bernardino County, at
